This time and place having been determined upon by resolution of this Board at the meeting of June 3, 1919, as the time and place for citing the Bergen Avenue jitney men who are charged with overcharging in fares, the Corporation Counsel informed the Board that no further action could be taken in the proceedings to revoke the licenses, as a writ of certiorari had been obtained by Charles Tate out of the Supreme Court, and suggested that the matter be laid over until after the writ is argued, which will be June 28, 1919.

The Commission discussed the matter and the following resolution was introduced:

By Mayor Hague:

Whereas, This Board is advised by the Corporation Counsel that a writ of certiorari was issued out of the Supreme Court on June 9 directing the certification of resolutions looking toward the fixing of fares charged by jitneys or auto busses on Bergen Avenue, and the proceedings for the revocation of the licenses of certain of the operators of such jitneys; and

Whereas, The said Corporation Counsel advises that in view of the issuance of the said writ, no further steps should be taken to revoke said licenses or to fix fares;

At this time Peter Bentley appeared in behalf of the Cochrane Chemical Company and urged the Board to take action on the petition filed by Samuel Cochrane with this Board on May 6, 1919, relative to certain land concessions in Plot A, Block 1371½. Mr. Bentley stated that Mr. Cochrane's option on the property would expire very shortly and it will be necessary to expend a large sum of money for a renewal of the option.

Commissioner Fagen, to whom was referred the original petition, informed Mr. Bentley that the matter was a very important one inasmuch as it was connected in some respects with the Danforth Avenue sewer and the

matter must be very carefully considered. He assured Mr. Bentley that he was working on the matter and would make his report at a date as early as possible.

On motion of Commissioner Fagen the Board adjourned.

No one appeared to protest against any of the ordinances, and no written protests were received against the above ordinances.

On motion of Commissioner Gannon the ordinances were referred to Miscellaneous Business for further action.

HEARINGS.

This time and place having been set for public hearing on application of James H. Mullins for permission to alter building No. 163 Newark Avenue, and on the application of George Wagner to erect electric sign at No. 323 Grove Street the City Clerk called for anyone who might desire to protest against the granting of the above mentioned applications. At this time Counsellor James Pyle appeared before the Board and again urged the Commission to grant permission to his client, Morris Schotland, to construct a garage at No. 60-62 Orient Ave. Counsellor Pyle stated that he had secured the signatures of the residents in the neighborhood of Mr. Schotland, and it appears that none of them object to the erection of the garage.

The Board discussed the matter and in conclusion ordered the matter laid over to Tuesday, July 1, 1919, so that Mr. Sexton of the Zoning Commission may be present and state his views in the matter.

This time and place having been set for public hearing on the proposed establishing of a Public Curb Market at Jersey Avenue and Newark Avenue, the City Clerk called for anyone who might desire to be heard either in favor of or against the granting of a permit to hold such market.

The following persons and representatives of Civic bodies appeared and stated that they were in favor of the establishing of the public market:

Mr. Berger, President of the Hudson City Board of Trade.

Mr. Kleinhaus of the Jersey City Business Men's Association.

A representative from the Jersey City Women's Club.

A representative from the Young Women's Christian Association.

A representative from the Whittier Home, Jersey City.

Mr. Stanton of the Jersey City Chamber of Commerce.

Mr. William Riston, representing property owners at Nos. 185-195½ Newark Avenue and Nos. 533-537 Jersey Avenue, appeared and stated that his clients protested against the market, as it would be a detriment to the property and unjust to the rentpayers. He also stated that the City would receive no compensation and the project would require extra police protection and supervision by the Department of Streets; further, that this section was already badly congested and the market would make conditions worse.

The Commission discussed the matter thoroughly and recalled to those present the conditions that existed when the last public market was created, which market could not draw the farmers to this City, and that only peddlers and hucksters were able to dispose of their wares, and finally the market proved a failure.

Mr. Stanton of the Chamber of Commerce assured the Commission that a number of farmers have agreed to come to Jersey City during the market hours prescribed and that peddlers would not be permitted to sell at the market.

In conclusion the following resolution was introduced

By Commissioner Fagen:

Whereas, A public hearing was held upon the petition of the Women's Civic Bodies of Jersey City for permission to have established a public market at the junction of Newark Avenue and Jersey Avenue; and

Whereas, This Commission is desirous of seeing a public market created for the sake of household economy, and being assured that this market would be a real farmers' market, and the said Civic Bodies having submitted rules and regulations that were drafted by them governing such market, and the Commission not being desirous of being governed entirely by such rules and regulations, but wants to have direct supervision over the granting of the licenses;

Resolved, That the Director of the Department of Streets and Public Improvements grant a permit to hold a farmers' market at the junction of Newark Avenue and Jersey Avenue,

and that permits when granted to farmers as under the rules of the said Civic Bodies, be referred to the Superintendent of Weights and Measures of Jersey City, under whose sole supervision such market shall be held, in conjunction with the Market Committee, said permits shall be issued; and, be it further

Resolved, That no permits shall be revoked without written charges being preferred by the Market Committee to the Superintendent of Weights and Measures, to be presented to the City Commission in open meeting.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.

Nayes: None.

At this time Mr. Henry Bloch and Mr. Arthur Myer appeared and requested permission to address the Board and the same was granted. They stated that they represented Schulte Company of New York, who had leased property in the vicinity of the Summit Avenue Tube Station, on which they have started the erection of two one-story buildings, one building to be divided into three stores and the other building to be divided into nine stores. They further stated that they cannot proceed with the construction, due to the fact that our Superintendent of Buildings insists upon 8-inch fireproof walls being used to divide off the stores, as in his opinion the stores constitute separate buildings, and that they contend that our code prescribed only 4-inch fireproof partitions. Mr. Myer stated that the Schulte Company had leased to other people all the stores with the exception of those which they are to occupy, and that the extra four inches for the walls would mean a big loss to the company. He also stated that the Schulte Company was losing about $100.00 a day while the construction was being delayed.

The Commission discussed the matter at length and ordered the matter laid over to Tuesday, July 1, 1919, at 2 p. m. in the Assembly Chamber, City Hall, Jersey City, so that the Superintendent of Buildings may be present and state his views in the matter.

From Hudson County Building Trades Council, endorsing the building code of Jersey City and requesting a meeting with their committee for possible corrections or improvements to the code.

Received and referred to Commissioner Gannon.

From the Zoning Commission, in the matter of the petition of Schetty Bros. for permission to construct two-story and one-story brick extension at Nos. 133-135 Leonard street, reporting that they see no good reason for redistricting this street, but in view of the fact that property owners in the neighborhood have stated to Schetty Bros. that they do not object to the construction and are in favor of the street being redistricted, they suggest that the Board hold a public meeting so that all property owners interested may be heard.

Received and recommendations adopted.

Whereas, to that end an appropriation of $20,000, has been made to meet the expenses of the same and placed to the account of the Department of Parks and Public Property; and

Whereas, great uncertainty exists as to the precise time or times that transports will arrive in the harbor with soldiers who were given to the country's service from this city, and, likewise, great uncertainty as to how many ships or transports will arrive with such soldiers, so that no adequate and intelligent preparation can be made in advance of a few hours of the ships' arrival; therefore, be it

Resolved, That the Director of the Department of Parks and Public Property be and he hereby is delegated and instructed to attend to the welcoming home of such soldiers as aforesaid; and, be it further

Resolved, That in view of the uncertainty hereinabove referred to an exigency or emergency is hereby declared to exist and the said Director of the Department of Parks and Public Property is hereby authorized, so far as the same may be necessary, to enter into contracts for the purchase of supplies and the doing of labor without public advertisement.

MEETING OF JUNE 30, 1919

Minutes of a regular adjourned meeting of the Board of Commissioners of Jersey City, held in the Assembly Chamber, City Hall, Jersey City, Monday, June 30, 1919, at 2 P. M.

Present: Commissioners Fagen, Moore and O'Brien.

Absent: Commissioner Gannon and Mayor Hague.

In the absence of Mayor Hague, Commissioner Moore presided as Mayor and called the meeting to order.

On motion of Commissioner O'Brien the board took a recess to 2:30 P. M.

Upon reconvening the City Clerk called the roll and the following Commissioners answered to their names as called.

Present: Commissioners Fagen, Gannon, Moore and O'Brien.

Absent: Mayor Hague.

In the absence of Mayor Hague, Commissioner Gannon presided as Mayor and called the meeting to order.

Commissioner Gannon called upon Corporation Counsel Milton to render an opinion in the matter of issuing liquor licenses for the coming year.

Mr. Milton appeared and advised the board as follows:

By Mr. Milton:

Mr. Mayor and Commissioners, I have given some thought to the matter of issuing licenses to sell liquor, and I had the subject up with Mayor Hague Saturday of last week and this morning, and also with you gentlemen, as you know.

As I understand it, the Constitutional Amendment does not take effect until January, 1920, I think it is the 16th of January, so that the only thing that we have to deal with at this time, is the so-called "War Time Prohibition Act," which prohibits the sale of intoxicating liquods during the progress of the war, commencing July 1, 1919. Under the Act, the President of the United States has the power to lift the ban and say when intoxicating liquors may be sold.

In a recent interview given out through his Secretary, the President stated that under the construction of the Act put upon it by the Attorney-General of the United States, and with which I agree, he had no authoriy to lift the ban until demobilization was an accomplished fact. He prophesied that demobilization would be complete the latter part of August or the early part of September.

We have rather a difficult situation to deal with in my judgment, brought about because of the state of law on the subject. It is my view that under the laws of this state, that if there is a lapse of any period of time between the expiration of the present licenses and the renewal, those licenses become dead, and any licenses that are not renewed are void and dead.

I understand from the City Clerk that approximately 600 persons have applied for licenses. This represents a considerable sum of money to the City. My conclusion is, that what your Board should do is to issue the licenses as usual in the customary form, and I might call your attention to this fact, that the enforcement of the amendment is a Federal Act. It does not rest upon the shoulders of this Board, it rests with the Federal authorities.

I might say this, that the Federal Act does not in terms prescribe the selling of malt, brewed liquors or wines; what does it say is intoxicating liquors. That the sale of 2¾ per cent. beer was not a violation of that statute because beer containing that small content of alcohol is not intoxicating.

the Circuit Court of Appeals said that that should be resolved by the jury.

It seems to me that in view of these questions that what you might do in the premises is issue these licenses, of course being satisfied that the applicants are fit and proper persons, the form of the license indicating that the applicant takes the license at his own risk.

Upon the conclusion of Mr. Milton's statement, the following resolutions were introduced:

By Commissioner O'Brien:

Board of Commissioners

July, 1919

MEETING OF JULY 1, 1919

Minutes of a Regular Meeting of the Board of Commissioners of Jersey City, held in the Assembly Chamber, City Hall, Jersey City, on Tuesday, July 1, 1919, at 2 P. M.

Present: Commissioners Fagen, Gannon, Moore O'Brien and Mayor Hague.

Absent: None.

FRANCHISE HEARINGS.

This time and place having been set for public hearing on the application of Lembeck & Betz Eagle Brewing Co. for permission to construct on Ninth and Tenth and Henderson streets to connect with the Erie Railroad, the City Clerk called for anyone who might desire to be heard either in favor of or against the granting of the application.

A communication in writing was received from Anthony F. Schomaker, owner of Lot 1, Block 217, corner Henderson and Tenth Streets, and Lot 25, Block 216, south side of Ninth Street, favoring the proposed laying of tracks.

Miss E. M. Barry, Mrs. Mary O'Connor and Mrs. Mary E. Feeley, representing property owners on the north side of Ninth Street, appeared and protested against the application, stating that the residential property in that section was well tenanted and the houses were always kept in excellent condition and that the proposed tracks would be a detriment to the property.

D. Eugene Blankenhorn, Attorney for Lembeck & Betz, appeared and assured the Board that the proposed tracks would not injure adjoining property and would cross only in front of the property of the company.

On motion of Commission Gannon the matter was referred to Miscellaneous Business for further action.

This time and place having been set for public hearing on the application of William A. LaDue for permission to maintain encroachment on building owned by him at Boulevard and Clinton Avenue, the City Clerk called for anyone who might desire to protest against the granting of the application.

No one appeared to protest and no written protests were received.

On motion of Commissioner Gannon the matter was referred to Miscellaneous Business for further action.

At this time Counsellor James E. Pyle requested permission to withdraw the petition of M. Schotland to construct garage at 60-62 Orient Avenue, and the Board granted his request.

Edward Salley, Attorney for Davis Fineberg, appeared at this time and requested permission to address the Board and the same was granted. Mr. Salley informed the Board that he had obtained a rule to show cause why a permit should not be granted Mr. Fineburg to construct a private garage at Bergen and Claremont Avenues. Mr. Salley stated that he had taken the matter up with Corporation Attorney Bentley, and Mr. Bentley advised him that the City had no defense in the matter and would have to grant the permit. Mr. Salley requested the Board to grant the required permit so that he would not have to take the case to the Courts, the cost of which the City would have to pay.

The Board informed Mr. Salley that inasmuch as protests had been filed against Mr. Fineberg's application at a public hearing, and that a permit was denied, the Board would not reconsider the decision.

Mr. Salley then informed the Board that he would take the case to the Courts for settlement.

Received.

From Commissioner Fagen, reporting on the application of Samuel Cochrane, owner of the Cochrane Chemical Company, for certain land concessions in Plot A, Block 1271½, and recommending that the petition be denied.

From Commissioner Fagen, recommending that the bids for special and

standard castings received by the Board on May 27, 1919, be rejected and the specifications returned to the Department of Streets and Public Improvements, due to the fact that the contemplated new work will require additional castings and of different pattern than those called for in the specifications.

Received.

From Commissioner Gannon, submitting the annual audit of Jersey City, for the fiscal year December 1, 1917 to November 30, 1918.

Received and ordered filed.

From Commissioner Gannon, submitting the annual audit of the Water Department of Jersey City for the fiscal year December 1, 1917, to November 30, 1919.

At this time the Mayor requested Corporation Counsel Milton to define as clearly as possible the question about prohibition and its enforcement, so that the Commissioner of Public Safety could be guided in a proper and legal manner.

Mr. Milton informed the Board that the act was a Federal statute, and the duty of enforcing it rested on the shoulders of the Federal authorities, unless the Federal authorities should request assistance, then we would have to assist them. He also stated that saloonkeepers had a right to do business and sell beverages not containing more than 2.75 per cent. alcohol, and if any saloonkeeper sold liquors that contained more than that amount of alcohol, he was violating the act, but it was not up to the local authorities to arrest the offender unless we are asked to do so by the Federal authorities.

By Commissioner Fagen:

Resolved, That the Report of the Director of the Department of Streets and Public Improvements, received this day with reference to furnishing and delivering special and standard castings, be received, and the recommendation contained therein approved; and be it further

Introducing an ordinance entitled "An ordinance granting permission to the Lembeck & Betz Eagle Brewing Company, its successors and assigns, the Erie Railroad Company and the United States Railroad Administration, to construct, maintain and operate certain tracks on Ninth Street and Tenth Street and Henderson Street, in Jersey City."

Received and ordered placed on file in the office of the City Clerk for a period of two weeks for the purpose of public inspection.

By Commissioner Fagen:

Whereas, it appears from communication from the Director of Streets and Public Improvements, that it is necessary and advisable to make certain modifications in the contract between the City and Joseph L. Sigretto & Company for the furnishing and laying of 72-inch steel main under the Hackensack and Passaic Rivers in these respects, viz.:

1. By eliminating from the pipe crossing under the Passaic River the concrete saddle and by substituting therefor cast iron weights which are to be hung on either side of the pipe every fifteen feet, the same to be anchored or suspended by means of a 1½-inch galvanized steel cable, the latter to be attached to the cast iron weight with a 1½-inch galvanized clamp. The cable is to be fastened in running down the side of the pipe to galvanized steel bars 2 inches by 1 inch and 2 feet long. The cast iron weights shall weigh at least 2¼ tons.

2. Contractor must allow to the City

the value of materials and work which would have ben required in constructing saddles at $6, per lineal foot. The cast iron weights and cables are to be supplied by the contractor for the actual cost to him, receipted bills being certified and the work of placing them being done under provisions of Article 26A of the addenda to the specifications.

3. From the pipe crossing under the Hackensack River is to be eliminated the concrete saddle and concrete footings. As a substitute, pipe is to rest on top of capping and to have inserted at intervals of 5 feet on each pile bent a chock or wedge shaped to fit the pipe and to be securely and permanently fastened to the capping. As a substitute for the weight furnished by the saddle, the pipe is to be tied down to the piles by means of galvanized steel cables 1 inch in diameter, the cables to be tied around 1-inch dock spike driven through top of pile and end of cable secured by means of a 1-inch galvanized clamp, cables being placed in position every 15 feet.

4. Trench in the bed of the Hackensack River wherein pipe is to be placed to be excavated for an additional foot, as well as trench on land to be excavated for sufficient depth to allow pipe to be placed at same grade as existing pipe line.

5. Allowance to be made to the City for the elimination of the concrete footings of a lump sum of $2,175, and for the elimination of the saddle $6 per lineal foot.

6. Cables to be furnished in place under the provisions of the specifications governing extra work—Article 26A of the addenda.

7. For the extra excavation on land as well as under water and for any other lawful claim that the contractor may have, he is to be compensated in such amount as may be reached by arbitration. Upon the completion of the job the City shall select some competent and qualified person to represent it—the contractor doing likewise. Upon failure of those two to agree, they to select an umpire; therefore be it

Resolved, That the aforesaid contract be and the same hereby is modified in accordance with the foregoing; and further

Resolved, That as evidence of contractor's assent to the modification of the contract and as evidence of the assent of its surety, a certified copy of this resolution shall be signed by both and filed with the City Clerk.

Resolved, That the Board of Commissioners of Jersey City urges the adoption by the Congress of the United States of a resolution providing for such recognition of the Republic of Ireland;

Resolved, Further, that the Board of Commissioners on behalf of the City, extends to the people of Ireland its sympathy and good wishes in their determination to achieve their National Independence; and further, be it

Present: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.

Absent: None.

CALL.

August 8th, 1919.

Hon. Frank A. Dolan,
City Clerk.

Dear Sir:—I would respectfully request that you issue a call for a special meeting of the City Commissioners to be held at the Assembly Chamber, on Monday, August 11th, at three o'clock for the purpose of receiving suggestions from the representatives of the various business men's associations in this city, as to the best method to be followed in distributing the Government foodstuffs to be purchased by the city.

The presence of the Corporation Counsel and Purchasing Agent is also requested.

Very truly yours,

FRANK HAGUE,
Mayor.

From General Purchasing Agent, submitting list of the various army foodstuffs, giving unit quantities and prices thereof per unit, stating that these supplies can be had within 72 hours from date of order and are ready for delivery at the several Army Supply Bases in the immediate vicinity of the Port of New York.

Received and filed.

By Mayor Hague:

The object of this meeting is for the purpose of devising an adequate system of distributing the army foodstuffs which the Commission proposes to purchase from the Government. This Commission has come to the conclusion that the best way to distribute these foodstuffs would be through the business men throughout the city; that we solicit the stores of the various business men and establish distributing stations where the public may come to purchase these supplies; that we take the names and addresses of the various businessmen who are interested in this patriotic move and publish same in the local newspapers, giving the list of the various articles they will handle and the prices at which they will be sold to the public. The Commission is anxious to have this proposition under way with the least possible delay, and we respectfully request suggestions from the heads of the various business men's associations to work out ways and means to avoid congestion in the sale of the various articles to the public.

The Messrs. G. Kleinhaus, Joseph Payton, Joseph E. Bernstein, Mr. Berger, Mr. Bridges, Mr. McCaffery of the various business men's associations, and Mr. Stanton of the Chamber of Commerce, and Mr. Henry Kohl of the National Grocery Company and Mr. A. G. Hoffman of the Atlantic & Pacific Tea Company all pledged their support to the Commission and stated that they were willing to render their assistance and co-operate with the City Commission and that they were ready at the direction of the Commission to distribute the army foodstuffs to their best advantage possible.

On motion of Commissioner Gannon, the Board adjourned.

"We are in receipt of specifications for underground park lighting at the Reservoir Playground. We are unable to make any definite proposal on this work as you are entitled to the nineteen (19) standard ornamental poles, together with their lamp outfit, without cost, this being part of our regular service.

CITY ORDINANCES.

This time and place having been set for public hearing on the final passage of the following ordinances: $25,000.00 bond issue for improving Reservoir Playground, $22,600.00 bond issue for repavement of First Street, $47,500.00 bond issue for repaving Central Avenue, the City Clerk called for anyone who might desire to protest against the passage of each of the ordinances. No one appeared to protest against any of the ordinances, and no written protests were received against any of the ordinances.

On motion of Commissioner Gannon the ordinances were referred to Miscellaneous Business for further action.

At this time Mr. Frank Sommers, counsel for the various municipalities in the Public Service Trolley fares litigation, appeared and advised the Board relative to the status of the case against the Public Service Corporation.

The Board assured Mr. Sommers that they will co-operate with him in the matter, and that the City had made provisions for an appropriation to cover Jersey City's share in the costs of the litigation.

Mr. J. A. Tapee, President of the Central Union Stock Yards Co. of Jersey City, appeared at this time and requested permission to address the Board, which permission was granted. Mr. Tapee stated that a certain portion of the stock yards had been destroyed by fire and that he had sent a representative of the company to the City Hall for information relative to securing a permit for rebuilding the pens. This representative was informed by someone in the City Clerk's Office that no permit would be necessary, whereupon the work of rebuilding the yards proceeded until recently, when Inspector Garvey of the Building Department ordered the work stopped because the Building Department claimed that it was a violation of the Building Code. Mr. Tapee further stated that a peculiar situation had arisen by virtue of the fact that his company was handling over 4,000 horses that were to be used in the Pershing parade in New York City on Wednesday, September 10th, and which were to be shipped through their stock yards to Washington on the evening of Wednesday, September 10th. He therefore requested the Board to grant him permission to finish the rebuilding of the pens and then to take up the matter of securing a building permit.

Mayor Hague advised Mr. Tapee that inasmuch as the work had progressed so far without a permit, in view of the exigency which had arisen, that he thought the Board should allow them to proceed with the rebuilding of the pens and on motion of Mayor Hague the City Clerk was instructed to notify the Police Department not to interfere with the completion of the pens.

Present: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.

Absent: None.

RECEPTION OF BIDS:

This time and place having been set for the reception of bids for furnishing supplies to Jersey City, the City Clerk called for bids with the following result:

FRANCHISE HEARINGS:

This time and place having been set for public hearing on the application of Colgate & Co., for permission to construct and maintain a shipping platform with overhead canopies along the Grand Street side of the new building which is to be constructed as an extension to its present building on the northwesterly corner of Grand and Greene Streets, the City Clerk called for anyone who might desire to protest against the granting of the permission requested. Introducing an ordinance entitled "An ordinance granting permission to Colgate & Company to construct and maintain shipping platform with overhead canopies along the Grand Street side of the new building which Colgate & Company purposes to construct as an extension to its present building on the northwesterly corner of Grand and Greene Streets."

Received and ordered placed on file in the office of the City Clerk for a period of two weeks for the purpose of public inspection.

CITY ORDINANCES:

This time and place having been set for public hearing on the final passage of an ordinance relating to the financing of the Thirteenth Street viaduct, $26,000.00—an ordinance relating to the financing of improvement of Palisade Avenue, $21,000.00—and an ordinance relating to the financing of the completion of the improvement of Palisade Avenue, $30,000, the City Clerk called for anyone who might desire to protest against the final passage of any of the above ordinances. No one appeared to protest against the final passage of any of the ordinances, and no written protests were received against any of the ordinances above described.

On motion of Commissioner Gannon the ordinances were referred to miscellaneous business for further action.

The hearing on the final passage of an ordinance fixing the fares at five cents on the Bergen Avenue jitney line having been adjourned and continued to this time and place, the City Clerk called for anyone who might desire to protest against the passage of the ordinance.

William E. George, attorney for the Bergen Avenue jitney men, appeared and requested that the ordinance should not be passed. He stated that the jitney men were now charging a ten cent fare and that they were being well patronized; further, that

most of the cars on the Bergen Avenue line were Ford touring cars and some with extended bodies, and could not carry as many passengers as the "bus type cars" and that a five cent fare would make it impossible for the men to operate on that line.

The Board discussed the matter and on motion of Mayor Hague, Supervisor of Jitneys Thomas J. Maloney was directed to co-operate with Corporation Counsel Milton in compiling data relative to the operating cost, etc., of the cars operating on Bergen Avenue, and to submit same to this Board for consideration in connection with the passage of the ordinance; and that final passage of the ordinance shall be held in abeyance until such time as the report is submitted to the Board.

continued to this time and place, the City Clerk called for any one who might desire to protest against the final passage of the ordinance granting the desired permission. No one appeared to protest, and no written protests were received.

On motion of Commissioner Fagen, the ordinance was referred to Miscellaneous Business for further action.

The hearing on the final passage of an ordinance for the relief of Lembeck & Betz in the construction and maintenance of connecting tracks on Ninth and Tenth and Henderson Streets having been adjourned and continued to this time and place, the City Clerk called for anyone who might desire to protest against the granting of the permission, or who might desire to be heard in favor of the application.

The following named persons appeared to protest the granting of the permission requested: Mr. Patrick J. Kennedy, 630 Pavonia Avenue, Miss Julia Barry, 18½ W. Hamilton Place, Mrs. Daniel O'Connell, 206 Ninth Street, Mrs. P. Newman, 206 Ninth Street, Mr. Patrick Egan, 208 Ninth Street, Miss E. Collins, 210 Ninth Street, Mrs. Catherine Quinlin, 216 Ninth Street, Miss Mary E. Feely, 212 Ninth Street, Mrs. Norah O'Neill, 214 Ninth Street, Mr. William O'Connell, 218 Ninth Street, Mr. James McIntyre, 201-203 Ninth Street, Mr. William Harvey, 205-207-209 Ninth Street, and Thomas F. Meeres, 503 Grove Street.

Mr. P. J. Kennedy acted as spokesman for the protestants, and in a lengthy plea urgently requested the Board not to grant the permission to Lembeck & Betz inasmuch as it would cause the depreciation of property in the vicinity; and be a detriment to the people who have lived there for a great many years and who have invested everything in order to provide homes for themselves for the future. He also stated that there were two fire engine companies in the vicinity and that if there was occasion for the engines to respond to a fire and had to go through Ninth Street, there would be a delay in getting through Ninth Street on account of the tracks and the cars might be standing there, thus causing probable loss of life and considerable property damage.

Mr. Thomas Meeres also appeared before the Board, protesting against the application. He exhibited a remonstrance against the operation of a moving picture theatre, on Ocean Avenue, signed by residents in that vicinity, including the Lembeck Estate representatives, which remonstrance was filed with the City Officials, and stated that the operation of this theatre would cause the depreciation of property in that neighborhood. Mr. Meeres requested the Board to compare the depreciation in property that would be caused in the respective districts by the operation of a harmless moving picture theatre, and connecting railroad tracks.

In reply to an inquiry by Commissioner Gannon whether or not the protestants would object to laying the tracks on Tenth Street, Mr. Kennedy stated that there would be no objection at all as long as they were not laid on Ninth Street.

Counsellor Eugene Blankenhorn appeared in behalf of the Lembeck & Betz Company, and requested that final action in the mater be deferred until they had investigated the protests, and in order to give the Lembeck & Betz Engineers an opportunity to work out the possibility of laying the tracks on Tenth Street instead of Ninth Street.

The Board discussed the matter and in conclusion the following resolution was introduced:

By Commissioner Gannon:

Resolved, That the hearing on the final passage of an ordinance for the relief of Lembeck & Betz Eagle Brewing Company, in the construction and maintenance of connecting tracks on Ninth and Tenth and Henderson Streets, be and the same is hereby adjourned and continued for a period of two weeks to Tuesday, October 14, 1919, at 2 p. m. in the Assembly Chamber, City Hall, Jersey City.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and O'Brien.

ZONING HEARING.

This time and place having been set for public hearing on the confirmation of map entitled "Map of District No. 5, Lower Part of Jersey City" filed by the Commission on Building Districts and Restrictions, the City Clerk called for anyone who might desire to protest against the confirmation of said map.

Counsellor Edward Salley appeared before the Board and presented a petition signed by property owners on Montgomery Street between Varick and Monmouth Streets, in which they protest against the zoning of that section as "residential," and stating that they do not object to the erection of buildings for store, garage or other commercial purpose on that block.

On motion of Commissioner Gannon, the map was referred back to the Commission on Building Districts and instructed Counsellor Salley to take the protest up with that Board.

Whereas, Heretofore the Interstate Lumber Co., a corporation of the State of New Jersey, was adjudged a bankrupt and Harry Lane was duly appointed Trustee in Bankruptcy therefor; and

Whereas, Said Harry Lane, Trustee as aforesaid, instituted certain proceedings in the Court of Chancery of the State of New Jersey against certain banking institutions situate in this and other States, and others, seeking to set aside certain transfers of property, which said proceedings are now pending; and

Whereas, Certain negotiations have been had looking toward settlement of said proceedings, whereby if the same be consummated there will remain in the hands of the said Trustee, after payment of all administrative, receiver's and attorneys' fees in Chancery, and Trustee's and attorneys' fees and allowances in Bankruptcy, the sum of Forty-five hundred dollars ($4,500) for distribution among the creditors, exclusive of "banks" whose claims, amounting to about thirty-seven thousand dollars ($37,000), are to be withdrawn or released as a part of such settlement; and

Whereas, Apart from the claim of the said Trustee, set forth in such proceedings so pending in the Court of Chancery, there are practically no assets of said bankrupt estate; and

Whereas, The City of Jersey City has a claim against said bankrupt corporation amounting to six dollars and sixty-seven cents ($6.67) for unpaid water rents and two thousands nine hundred and eighty-eight dollars and thirty-eight cents ($2,988.38) for unpaid personal taxes—the entire claim amounting to Two thousand nine hundred ninety-five dollars and five cents ($2,995.05); and

Whereas, In order to consummate said settlement it is necessary that all preference be waived and the creditors accept a pro rata division of the said sum of forty-five hundred dollars ($4,500); and

Whereas, After investigation, it appears for the best interest of the City to waive its preference, if any, in order to effect the consummation of said negotiations for a settlement of said proceedings; therefore, be it

Resolved, That the right, if any, held by the City of Jersey City entitling it to a preference in the distribution of said sum of forty-five hundred dollars ($4,500) so to be realized for division from said settlement, if effected, be and the same is hereby waived, and the said City hereby consents to share pro rata with other creditors (exclusive of "banks") therein, and the Trustee in Bankruptcy of the Interstate Lumber Co. and the Receiver in Chancery, or either of them, is hereby authorized (so far as the claim of the

City of Jersey City is concerned) to accept the said offer of settlement; and the Corporation Attorney of Jersey City is hereby authorized to appear and enter such consent or consents as may be necessary for the confirmation and consummation of said settlement; and the Director of Revenue and Finance of Jersey City is hereby authorized to accept the pro rata dividend on said claim of the City against said bankrupt corporation in full payment thereof, and of the taxes and water rents so due as aforesaid.

might desire to be heard either in favor of or against the undertaking of the proposed improvement.

Mr. Henry Prigge, who has business interests in Tonnele Avenue, appeared and urged the Board to proceed with the improvement as Manhattan Avenue at present is in a very bad condition, and that this street was the only traffic outlet to the County Road and other sections of the County.

Dr. Gordon Dickinson appeared in behalf of the County Medical Institutions, and requested that the improvement be made. He stated that, due to the poor condition of Manhattan Avenue, patients who are being carried to the hospitals are subject to severe jostling and shaking up.

The Board discussed the matter and upon motion of the Mayor, the City Clerk was instructed to advertise for a public hearing on October 14, 1919, so that the public at large who use the jitneys on this line, may be given an opportunity to be heard in the matter.

OFFICERS' COMMUNICATIONS.

From John Saul, Superintendent of Buildings, informing the Board that the application filed by Henry J. From John Saul, Superintendent of Buildings, reporting in the matter of the application of J. H. Stone for permission to erect three frame buildings for commercial purposes at Nos. 125-151 Duffield Avenue, and informing the Board that he could see no good reason why frame construction should be permitted for this class of building, inasmuch as the City has discouraged the erection of frame buildings in many cases.

From Superintendent of Buildings John Saul, reporting on the application of the Central Union Stock Yards Co. and advising the Board that fire hazards should not be increased when non-inflammable material can be used. He also stated that permission for the erection of these buildings in frame had been granted some years ago, and that they had recently burned down, and that frame construction should not be allowed to re-erect them.

City Clerk:
Dear Sir:

Will you kindly call a special meeting of the Board of Comissioners of Jersey City, to meet at the office of the Mayor on Friday, October 10, 1919, at 11 o'clock A. M., for the purpose of considering a resolution requesting the State Civil Service Commission to make certain changes in the standard requirements of all applicants for the Police Department, and to extend the time for filing the applications.

Yours very truly,
FRANK HAGUE.
Mayor.

By Mayor Hague:

Whereas, It is the desire of the City Commission wherever possible to give employment to returned soldiers, sailors and marines; and

Whereas, The filling of vacancies in the Police Department has been deferred in order to give our soldiers and sailors an opportunity to take the examination and at the same time increase the efficiency of the Department through the addition of these vigorous and well disciplined young men; and

Whereas, It appears that while many of these young veterans are absolutely sound and physically, yet they fall slightly below the minimum height and weight standard which has been set and are thus disqualified; and

Whereas, It appears to the City Commission that if these young men were acceptable to the Government and proved themselves as fearless and capable as any soldiers or sailors in the world, that they are good enough for the Police Department of Jersey City; therefore be it

Resolved, That the Civil Service Commission be and is hereby requested and urged to change the minimum standard weight from 145 pounds to 140 pounds; and the minimum standard height from five feet, eight inches to five feet, seven inches and that those applicants who have been rejected because of failure to meet the previous height or weight requirements be given the benefit of a re-examination; and be it further

Resolved, that the time wherein an application may be filed be extended to October 20, 1919.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.

Nays: None.

The City Clerk informed the Board that there was no further business.

On motion of Commissioner Gannon the Board adjourned to meet on Tuesday, October 14, 1919, at 11 A. M., in the Assembly Chamber, City Hall, Jersey City.

Approved:

CHARLES F. X. O'BRIEN.

FRANK A. DOLAN,
City Clerk.

MEETING OF OCTOBER 14, 1919

Minutes of a regular adjourned meeting of the Board of Commissioners of Jersey City, held in the Assembly Chamber, City Hall, Jersey City, on Tuesday, October 14, 1919, at 11 a. m.

Present: Commissioners Fagen, Gannon and Mayor Hague.

Absent: Commissioners O'Brien and Moore (excused).

This time and place having been advertised for public hearing on the proposed passage of an ordinance fixing the minimum rate of fare for jitneys operating on the Bergen Avenue line, the City Clerk read the public notice of hearing as advertised in the local newspapers.

The Mayor explained to the persons present that the purpose of this hearing was to take testimony and determine whether or not the Board of Commissioners of Jersey City shall pass an ordinance reducing the fare from ten cents to five cents, on the Bergen Avenue jitney line.

The City Clerk called for anyone who might desire to be heard in favor of the five cent fare. No one appeared in favor of the five cent fare.

Inasmuch as no one appeared in favor of the five cent fare, on motion of Mayor Hague, that part of the hearing was ordered closed.

The City Clerk then called for anyone who might desire to be heard in favor of a ten cent fare for jitneys operating on the Bergen Avenue line.

Thomas J. Lane, of 257 Grant Avenue, Jersey City, president of the Newark Tire and Rubber Company, appeared and stated that he had been connected with the rubber business for a good many years and was well acquainted with the cost and upkeep of automobiles. He stated that barring defective tires and car-track riding, the average tire mileage was about 5,000 miles, and the cost to the jitney man about $1.88 per day on this basis. In his opinion this tire expense, together with all other miscellaneous expenses, would leave a very small margin of profit, if any, to the jitney man if he were compelled to charge only a five cent fare.

Mr. Willard Stanton, a former jitney owner on the Bergen Avenue line, appeared and exhibited his schedule of receipts and expenses during the period he operated a jitney, which showed a large loss instead of a profit on his investment. He stated that at a five cent fare, it would be impossible to hire a chauffeur to run the jitney and with other expenses, the jitney business was not a profitable investment for anybody.

Mr. George Tracy, president of the Bergen Avenue Jitney Men's Association, appeared and submitted written statements for all types of cars operating on the Bergen Avenue line, showing the expenses and receipts. He stated that it was impossible to operate at a five cent fare and that the reason there were still some operators on the line was due to the fact that the majority of the operators were able to make their own repairs and do their own overhauling and in this manner save a good deal of expense.

Commissioner Fagen advised Mr. Tracey that some of the jitneys were in very poor condition and unclean. In reply, Mr. Tracy stated that the association had taken this matter under consideration and that the condition will be remedied immediately.

Mr. Tracey stated that the jitney men on that line were desirous of giving the public the best service possible and to maintain their cars in good condition, but in order to do these things, it is absolutely necessary to maintain the fare at ten cents.

The City Clerk called for anyone else who might desire to be heard in favor of the ten cent fare. No one appeared.

On motion of Commissioner Fagen the hearing was ordered closed.

Mayor Hague advised those present that the Board would consider the testimony given at this hearing, and would report on the matter at the regular meeting of the Board of Commissioners at 2 p. m. today in the Assembly Chamber, City Hall, Jersey City.

On motion of Commissioner Gannon the Board adjourned.

MICHAEL I. FAGEN,
JAMES F. GANNON, JR.,
FRANK HAGUE,
Commissioners.

Approved.

FRANK A. DOLAN,
City Clerk.

IMPROVEMENT HEARINGS.

This time and place having been advertised for public hearing on the final passage of an ordinance for the proposed improvement of Clarke Avenue from Mallory Avenue to Water Street, by the construction of a sewer, in accordance with provisions of Chapter 152, Laws of 1917, the City Clerk called for anyone who might desire to be heard either in favor of or against the undertaking of the proposed improvement.

Wr. Reuthenbeck of No. 146 Clarke Ave., representing fifteen property owners on this street, appeared and urged the Board to proceed with the improvement, as sewerage conditions were very bad in that section, and detrimental to the health of the residents.

Mr Joseph A. Duffy, Attorney, of 15 Exchange Place, representing Chas. A. McCloskey, owner of 24 lots on Clarke Ave.; Mr. Condiot of 15 Exchange Pl., representing the owners of 16 lots, and Mr. Clarke of 305 Pacific Ave., appeared and protested against the construction of the Clarke Avenue sewer at this time and requested that the matter be deferred. They also requested the Board to consider the construction of sewers in the adjoining streets of Clarke Ave., stating that if they were sewers in the adjoining streets of undertaken at one time, the result would be a saving of time and money to the City.

Commissioner Fagen discussed the matter with those present and in conclusion the following resolution was introduced:

By Commissioner Fagen:

mously decided not to adopt the ordinance fixing the fare at five cents, and to await more settled conditions.

The City Clerk then read the following ordinance as being ready for final passage:

In connection with this application, Counsellor Albert C. Wall appeared, and in behalf of Lembeck & Betz pre-

sented an amended petition and ordinance showing that the tracks will only be constructed on Tenth Street and Henderson Street, and that no tracks will be constructed on Ninth Street, as set forth in their previous petition and ordinance.

Mr. Wall stated that steam or other railroad locomotives would not be operated on these tracks and that the cars would be operated by electric or some other motive power; that these tracks will be similar to trolley tracks and will in no way be a detriment to the surrounding property inasmuch as the Erie Building is located on one side of Tenth Street and the other side of Tenth Street is the property of Lembeck & Betz. Mr. Wall stated further that the Lembeck & Betz Company were unable to continue the manufacture of brewed beverages due to the Federal Prohibition Amendment, but as it was necessary to operate a refrigeration plant in connection with the brewery, the company would continue to operate a cold storage plant and ice manufacturing plant, and to operate these plants successfully it would be absolutely essential to construct these tracks so that cars may be received and dispatched with expedition. He also stated that the residents of Jersey City will be greatly benefited by the operation of this ice plant, as they will be in position to obtain a plentiful supply during the hot months.

The Board discussed the matter, and in conclusion the following amended ordinance was introduced:

By Commissioner Fagen:

Introducing an ordinance entitled "An ordinance granting permission to the Lembeck & Betz Eagle Brewing Company, its successors and assigns, the Erie Railroad Company and the United States Railroad Administration, to construct, maintain and operate certain tracks on Tenth and Henderson Streets, in Jersey City."

Mrs. Gormley, 350 Ege Avenue, appeared and stated that she was opposed to this improvement because she has a sewer on her property at the present time.

A written protest was received from Mrs. Anna Loftus, of 356 Virginia Avenue, protesting against the improvement on account of the high cost of living, and stating that she has never had any trouble with the sewer as long as she has lived there.

A written communication was received from William Ruthenbach in which he stated that he was writing in behalf of a number of residents in that vicinity who were all in favor of the improvement being made.

A written communication was also received from Henry V. Condict, owner of several lots in the vicinity, and stating that both he and his nephew, who also owns several lots there, were desirous of having the improvement made.

PETITIONS AND COMMUNICATIONS.

From Town Clerk of Kearny, N. J., relative to supplying water to Kearny for five years from December 29, 1920.

Received and referred to Commissioner Fagen.

From Interstate Bridge and Tunnel Commission, protesting against the application of Lembeck & Betz for spur track on Tenth and Henderson Streets.

Received and on motion was ordered laid over for one week to November 25, at which time the hearing on the Lembeck & Betz application will be held.

From D. A. Schulte, Inc., requesting permission to erect two electric signs at No. 117-119 Newark Avenue.

Received.

From Elizabeth Donegan, requesting permission to erect garage in cellar of No. 267 Neptune Avenue.

Received.

From Oscar Hoehne, requesting the Commission to aid in reducing the high cost of living and to stamp out the fast growing evil which confronts the whole nation and which threatens to obstruct and destroy our free government and institutions.

In connection with this communication, Mr. Hoehne, secretary of the Hudson County Delicatessen and Grocers Association appeared and pleaded with the Commission to take immediate action towards remedying the conditions as set forth in his communication.

On motion of Commissioner Gannon the communication was referred to the Mayor.

From Commission on Building Districts and Restrictions, submitting protest of property owners and rent payers in the vicinity of the Boulevard, VanWinkle Avenue, Newark Avenue, Huron Avenue, and Ferris Street, against the location of the City Chemical Company at Nos. 67-69 and 71 VanWinkle Avenue stating that they are powerless to prevent the operation of this plant and advising the Board that this plant would be a detriment to that vicinity.

Received and referred to Commissioner O'Brien and the Superintendent of Buildings for investigation and recommendation.

At this time Commissioner O'Brien advised the Board that there was a delegation of representatives of the Central Labor Union of Hudson county, who might have something to discuss with the Board. Mr. Kenneth Forbes, secretary of the Central Labor

Union, then addressed the Board, and said he was of the impression that when the engagement had been made, the committee was to interview the Director of Public Safety, and that he did not know the matter would be taken before the entire Board. Commissioner O'Brien then said that he believed that the committee was present to discuss the Firemen's Union, and the Mayor thereupon asked Commissioner O'Brien if he felt the matter should be taken up before the entire Board. Commissioner O'Brien said that he believed this was a matter of great importance and should be discussed before the entire Commission in open meeting, so that anything that might be said could be discussed publicly in the newspapers with no fear of misquoting on the part of anyone.

Mr. Forbes thereupon addressed the Board upon the merits of the Firemen's Union being affiliated with the American Federation of Labor, and introduced as spokesman of the delegation, Mr. Seth Jones of Scranton, Pa., vice-president of the International Fire Fighters' Union.

Mr. Jones discussed at length the situation from the union standpoint.

The matter was discussed very thoroughly by Mayor Hague, Commissioner O'Brien, Commissioner Moore, Commissioner Fagen, Commissioner Gannon and Mr. Jones, and at the close of the discussion Mr. Jones advised the Board that the union was here to stay, and that he would take immediate steps to that end.

Mayor Hague advised Mr. Jones on behalf of the Commission that he could do as he pleased in the matter, and that the Commission was firm in their action.

Thereupon Commissioner Moore moved that the action of Commissioner O'Brien and Mayor Hague in the matter of disapproving of the firemen affiliating with the American Federation of Labor be approved, and that it be the sense of the Commission that it would not be for the best interests of the City for the firemen to continue their affiliation with the American Federation of Labor.

The roll being called on Commissioner Moore's motion, the same was adopted by the following vote:

REPORTS OF DIRECTORS.

From Commissioner Fagen:

Reporting in the matter of the communication received from J. H. Brown relative to the assessment on property 89 Boyd Avenue in connection with improvement of Virginia Terrace, advising the Board the assessment map for this improvement had been filed, a public hearing advertised for and held at which no objections were presented and recommending that in view of the proceedings in the matter, the objection of Mr. Brown be not sustained.

Received and recommendations adopted, and on motion of Commissioner Fagen the matter was referred to Commissioner Gannon.

From Commissioner Gannon, submitting copy of letter he forwarded to Mr. Jerome O'Keefe and the reply received, in connection with a statement made by Mr. O'Keefe that he could purchase blankets the same size and quality at a much lower price than the City will pay for the blankets that they propose to buy from the United States Navy.

Commissioner Gannon stated that he requested Mr. OKeefe to be present today, but instead had received a communication from Mr. O'Keefe declining to be present.

The Board discussed the matter at length, and invited Purchasing Agent McGiverin to render his opinion. Mr. McGiverin advised the Board that he had made a thorough test of the blankets to be purchased from the Navy and found that they were an excellent grade of blanket and that the price was far below the regular price for such blankets.

In conclusion, Commissioner Gannon was directed by the Board to have Mr. O'Keefe submit one of his blankets to the Purchasing Agent for comparison with the Navy blanket, and that if Mr. O'Keefe did not comply with his request within a reasonable time, Commissioner Gannon should proceed with the purchase of 100 of the Navy blankets.

From Commissioner Gannon, submitting supplemental debt statement.

Received and ordered filed.

From Commissioner Gannon, to whom was referred the resolution introduced by Commissioner Moore, relative to the rental to Thomas Connolly of Morgan Street Dock property, recommending that the offer of Mr. Thomas Connolly to pay a rental for

this property at the rate of $100.00 per month be accepted.

Received and recommendations adopted.

No one appeared to protest and no written protests were received.

By Commissioner Moore:

An ordinance fixing the standard of time throughout Jersey City.

Whereas, The Congress of the United States has overridden the veto of President Wilson in the Daylight Saving Law, a statute which from a humanitarian standpoint has contributed largely to the comfort, well-being and contentment of the great body of wage earners in all the industrial centres of the United States, without detracting from a proper measure of service to employers, which has afforded the workman the opportunity to enjoy the society of his family by the light of day, which has enabled the bread-winner to spend more time in the improvement of his mind and body, which has given an extra hour of air and sunshine to the toiler in the shop and the factory in the recuperation of health; and

Whereas, This repeal was effected through the mistaken effort of the farmer employer, inspired and augmented by the avarice and selfishness of the lighting trusts throughout the country; and

Whereas, The Board of Commissioners of the City of Jersey City, voicing the sentiment of the overwhelming majority of those who labor in the diversified industrial occupations of this city, who have realized through practical application the great boon of

one hour's extra daylight for mental improvement and physical recreation, enacts the following ordinance:

Be it ordained by the Mayor and Aldermen of Jersey City, Through its Board of Commissioners, as follows:

That the standard of time throughout the City of Jersey City is that of the seventy-fifth meridian of longitude west from Greenwich, except that at 2 o'clock ante-meridian of the last Sunday in March of each year such standard time throughout the City of Jersey City shall be advanced one hour, and at 2 o'clock ante-meridian of the last Sunday in October of each year such standard time shall, by the retarding of one hour, be returned to the mean astronomical time of the seventy-fifth meridian of longitude from Greenwich, and all courts, public offices and legal and official proceedings shall be regulated thereby.

The City Clerk read the foregoing ordinance as ready for final passage.

The roll being called, the ordinance was passed by the following vote:

Yeas: Commissioners, Fagen, Gannon, Moore, O'Brien and Mayor Hague.

The hearing in the matter of the complaint made in writing by Augustus P. Bennett against Bernard Russell, jitney operator, having been set for

this time and place, the City Clerk read the complaint sworn to by Mr. Bennett wherein he states that on Thursday, January 8, 1920, at about 6:25 p. m., he was driving his car from Clinton Avenue into Ocean Avenue; that the streets were wet and as a consequence he was driving his car not over two miles an hour; that prior to entering Ocean Avenue he brought his car to a complete stop and looked in both directions for traffic; that the only thing at that minute in sight was a Greenville trolley at least 100 yards away from him; that he figured he had ample time to come into the street without any possible chance of danger; that as he proceeded to make the turn a jitney bus flashed out from behind the trolley car, running at a speed of considerably over 25 miles an hour and struck his car, doing considerable damage; that in the excitement he did not think to obtain the operator's name, but obtained the jitney bus number and the auto license number.

Mr. Bennett appeared and reiterated the facts as set forth in his sworn statement.

Mr. Russell was then called and stated that he was not operating his jitney bus at the rate of twenty-five miles an hour; that Mr. Bennett came out of Clinton Avenue and cut his jitney bus off; that he is always careful when coming down grade and keeps his foot on the brakes and that the accident was Mr. Bennett's fault.

Mr. Maloney, Supervisor of the Jitney Bureau, was called and advised the Board that Mr. Russell had violated rules set down by the Jitney Bureau and that he had suspended him for 10 days.

Upon conclusion of the hearing of evidence in the matter the following resolution was introduced:

By Mayor Hague:

Resolved, That the license to operate a jitney bus granted to Bernard Russell by the City of Jersey City be and the same is hereby revoked, to take effect immediately.

The hearing on the application of the Lembeck & Betz Eagle Brewing Co. for permission to lay and maintain certain spur tracks on Tenth Street and over Henderson Street having been adjourned and continued to this time and place, the City Clerk called for anyone who might desire to protest against the passage of the ordinance.

A written protest was received from Emerson Richards, Deputy Attorney General, in behalf of the N. J. Interstate Bridge and Tunnel Commission, in which they state that Tenth Street will become a very important outlet upon the completion of the Interstate tunnel and that this spur would interfere with the operation of tunnel traffic. In view of this fact they request that the Board should not grant the ordinance for any definite period.

Corporation Counsel Milton, to whom was referred the protest of the Tunnel Commission, appeared and advised the Board that the modifications suggested by the said Tunnel Commission should not be sustained inasmuch as it would be unfair to the Lembeck & Betz Company and further that such restrictions were not included in similar ordinances previously granted.

The Board discussed the matter and in conclusion concurred in the opinion of the Corporation Counsel.

On motion of Commisisoner Fagen the ordinance was referred to Miscellaneous Business for further action.

Whereas, The said Hugh McGurty had the following dependent within the meaning of an act entitled, "An act prescribing the liability of an employer to make compensation for injuries received by an employe in the course of employment, establishing an elective schedule of compensation and regulating procedure for the determination of liability and compensation thereunder," to wit, Mary McGurty, his wife; and

Whereas, The said Mary McGurty applied to the Workmen's Compensation Bureau of the State of New Jersey for compensation under said act; and

Whereas, Investigation showed that the claim is a just one; and

Whereas, The Commissioner in charge of said Bureau has submitted forms 1, 2 and 4, which appear to be a mutual agreement to be entered into between said Mary McGurty and the Mayor and Aldermen of Jersey City, agreeing to the compensation of six and 86-100 ($6.86) dollars per week for a period of three hundred (300)

weeks, and a further payment of one hundred ($100.00) dollars to cover the cost of burial of the said Hugh McGurty; therefore be it

Resolved, That the following ordinance do now pass:

An ordinance granting permission to the Lembeck and Betz Eagle Brewing Company, its successors and assigns, and the United States Railroad Administration, Erie Railroad, to construct, maintain and operate certain tracks on Tenth Street and over Henderson Street, in Jersey City.

Whereas, the Lembeck and Betz Eagle Brewing Company has made application to the Board of Commissioners of Jersey City, by written petition (in which petition the United States Railroad Administration, Erie Railroad, joined), for permission to lay, maintain and operate a new and additional single line of track of standard gauge over Henderson Street and upon and across Tenth Street, in Jersey City, the center line of which is more particularly described as follows:

Beginning at a point in the easterly side of Henderson Street, distant therein ten feet more or less northerly from the intersection of said side of Henderson Street with the northerly line of Tenth Street; running thence (1) westerly across Henderson Street to a point in the westerly side of Henderson Street extended, ten feet more or less southerly from the northerly line of Tenth Street; thence (2) parallel with the northerly side of Tenth Street and distant ten feet southerly therefrom, one hundred and sixty-five feet more or less; thence (3) southerly, crossing Tenth Street on about a sixty degree curve to the southerly side of Tenth Street at a point distant two hundred and fifty-two feet more or less from the westerly side of Henderson Street; all as shown upon the plan annexed to the said petition presented to and filed with this Board; and the said Board of Commissioners, having duly advertised the same, and having held a public hearing for the purpose of receiving objections thereto, at which hearing no one appeared to make objection to the desired permission; therefore,

The Board of Commissioners of Jersey City do ordain:

Section I. Permission is hereby granted to the Lembeck and Betz Eagle Brewing Company, its successors and assigns, and the United States Railroad Administration, Erie Railroad, to lay, maintain and operate a new and additional line of track of standard gauge upon and across Henderson Street and Tenth Street, in Jersey City, the center line of which is more particularly described as follows:

Beginning at a point in the easterly side of Henderson Street distant therein ten feet more or less northerly from the intersection of said side of Henderson Street with the northerly

line of Tenth Street; running thence (1) westerly across Henderson Street to a point in the westerly side of Henderson Street extended, ten feet more or less southerly from the northerly line of Tenth Street; thence (2) parallel with the northerly side of Tenth Street and distant ten feet southerly therefrom, one hundred and sixty-five feet more or less; thence (3) southerly, crossing Tenth Street on about a sixty degree curve to the southerly side of Tenth Street at a point distant two hundred and fifty-one feet more or less from the westerly side of Henderson Street.

The track shall cross Henderson Street on a proper bridge having thirteen and one-half feet clearance above the surface of the street.

The track on Tenth Street, after crossing Henderson Street, shall reach the surface of Tenth Street at a point one hundred and seventy-three feet more or less westerly from the westerly side of Henderson Street and shall be supported by proper retaining walls.

The sidewalk on the southerly side of Tenth Street for a distance of forty feet on either side of each rail of said track shall be lowered to the grade of Tenth Street.

The track shall cross Tenth Street on the surface of Tenth Street and the nails shall be of the flat type and so laid in the surface of the street as not to interfere with traffic thereon.

The cars shall be moved on the track by means of electric, gasoline or other suitable tractors, horse or other motive power, provided, however, that no steam or other railroad locomotive shall be operated over the said track; and the cars shall be moved over the track crossing said streets mentioned in this ordinance in such a manner as not to interfere with traffic on said streets;

Neither pedestrians nor vehicles shall be prevented from crossing the track hereby authorized by the occupation of such track by cars operated thereon for a greater period than five consecutive minutes at any time, and the aggregate of any such periods shall not exceed 10 minutes in any hour between 7 o'clock a. m. and 7 o'clock p. m.

Whenever cars shall be moved across Tenth Street in either direction, care and caution shall be exercised by the said Lembeck and Betz Eagle Brewing Company and its servants, and no cars shall be put in motion across said street until a man stationed for that purpose shall have signalled that it can be done with safety.

After laying of the track as herein provided for, the surface of the several streets shall be restored to the condition the same was in before the commencement of the work, and the Lembeck and Betz Eagle Brewing Company, its successors and assigns, shall maintain the paving between the rails and 18 inches outside thereof in the proper condition during the period for which this ordinance shall remain in force and effect.

Whenever, during the term for which this ordinance shall be in force, the Commissioners of Jersey City shall repave Tenth Street, the Lembeck and Betz Brewing Company shall, at the same time, repave such part of Tenth Street as lies between the rails of said track and 18 inches outside thereof with paving of the same specifications, and upon failure so to repave such portion of such street, shall pay to said Commissioners of Jersey City the cost thereof.

In the laying of said track, no damage shall be done to any subsurface structures belonging to the city, such as sewer pipes, water mains or the like, but the Lembeck and Betz Eagle Brewing Company shall make proper provisions for the protection of such subsurface structures, such as sewer pipes, water mains or the like.

The Lembeck and Betz Brewing Company, its successors and assigns, during the term for which this ordinance shall remain in force and ef-

fect, shall not construct on Tenth Street any loading platform of more than four feet in width for a distance of 40 feet on either side of the point where said track shall enter its building.

Section II. This ordinance shall be in full force and effect for a period of 20 years. No work of construction shall be begun hereunder until an acceptance of this ordinance shall have been filed with this Board in the manner required by law.

Section III. For the privileges accorded herein, the said Lembeck and Betz Eagle Brewing Company, its successors and assigns, shall pay annually to the Board of Commissioners of Jersey City the sum of three hundred and twenty ($320.00) dollars, proper proportions of which payments shall be made semi-annually in advance to the City Comptroller of Jersey City at his office in the City Hall on the first days of February and August next succeeding the time when this ordinance shall become effective.

At this time a committee consisting of Mr. Charles Rooney, Harry Carmody, Hugh Kelly and Robert Armstrong, representing American Legion veterans who served in the late World War, appeared and addressed the Board with reference to the erection of a memorial to the soldiers who served in the war.

The Board discussed the matter at length and assured the Committee that they were in favor of the erection of a memorial building for recreational purposes.

The Mayor advised the committee to have a representation at the meeting to be held shortly by the Memorial Committee appointed by him, at which meeting a "Plan Scope Committee" will be appointed who will devise ways and means for the early completion of the memorial.

Mr. Hugh Kelly then addressed the Board requesting them to pass a resolution designating Corporation Attorney Bentley, a veteran of the late war, to represent the interests of the soldiers at the legislative sessions in Trenton this year, so that their interests may not be jeopardized by the passage of any legislative bills that might work hardship upon the veterans.

Upon conclusion of Mr. Kelly's remarks the following resolution was introduced:

By Mayor Hague:

Whereas, The County Convention of the American Legion of Hudson County has appointed a Legislative Committee, whose duty is to watch the bills introduced by the State Legislators and see that the interests of the veterans of the world war are not jeopardized and to cause to have drawn and introduced bills which in the judgment of the committee are necessary to protect the interests of the veterans; and

Whereas, The Commissioners of Jersey City have always been willing to do all in their power to aid the veterans, and as it will be necessary for the Legislative Committee of the American Legion to consult some one who is familiar with all pending and proposed legislation for advice and assistance;

Resolved, That the Corporation Attorney, Capt. John Bentley, being a veteran and a member of the American Legion, be requested to co-operate with the Legislative Committee of the American Legion and aid them in every way possible.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.

Nays: None.

The Committee then requested that the Board provide the war veterans, that is, the various posts of the American Legion, with temporary meeting quarters pending the erection of the proposed memorial building.

The Board discussed the matter, and upon motion the matter was referred to Commissioner Moore for investigation and report back to the Board.

On motion of Commissioner Moore the Board adjourned.

MEETING OF JANUARY 29, 1920

Minutes of a Special Meeting of the Board of Commissioners of Jersey City, held in the Assembly Chamber, City Hall, Jersey City, on Thursday, January 29, 1920, at 2 p. m.

Present: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.

Absent: None.

The City Clerk read the following call:

"To Frank A. Dolan, Esq.,
"City Clerk:

"You are hereby requested to call a special meeting of the Board of Commissioners of Jersey City for Thursday, January 29, 1920, at 2 o'clock p. m., at the Assembly Chamber, in the City Hall, Jersey City.

"(Signed) FRANK HAGUE,
"Mayor.

"(Signed) M. I. FAGEN,
"Commissioner."

Corporation Counsel Milton appeared and addressed the Board as follows:

"The purpose of this meeting, Mr. Mayor, is to deal with a situation which has arisen within the past few days in reference to the proper discharge of the contract for removals of ashes and garbage by the contractor holding this contract. As you may know, that contract was advertised and let in the latter part of 1916 and began to run on the first day of December, 1916, or the first day of January, 1917. It was let for a period of five years. I suppose you cannot face down the fact that the contractor predicated his bid on the costs prevailing at that time. Due to causes which every one is familiar with, the costs at that time are not the same as the costs of today. Every commodity has advanced from 25 to 100 per cent. The result has been to make the cost of this work so burdensome to the contractor that he cannot go on with the contract. He is heading straight for bankruptcy if he continues. In addition to that, he has had trouble with his employes. They struck. That resulted in the ashes and garbage not being collected in accordance with the terms of the contract. Commencing with about six weeks ago, the contractor only made one removal of ashes a week, whereas two removals a week were required by the contract. When the strike was called there was no removal of ashes at all. In that state of affairs, Mr. Boyle, who is inspector of removal of ashes, drew up this notice and sent it to your Board. The fact that Mr. Boyle had so certified to the Board was drawn to the attention of Commissioner Fagen, and he caused to be served on Mr. Harrington, president of Thomas Harrington's Sons Co., that the Board of Commissioners would deal with the situation at this time and place. We are here now for the purpose of considering what should be done. I further understand that Mr. Harrington and his counsel, Mr. Rosenberg, make no point of the shortness of time they have had to appear before the Board. They, as well as the Board, do understand that whatever action must be taken in the matter, must be taken at once. From the health standpoint, the ashes and garbage cannot remain in the street, especially because of the great danger of the epidemic of influenza. Am I correct, Mr. Rosenberg?"

By Mr. Rosenberg: Yes, sir; we are here today to answer to that notice, and Mr. Harrington has here a statement which I desire to file with the City Clerk if he will please read it to the Commission.

By Mr. Milton: And you did not

make it a point that you were not served until five o'lock last night?

By Mr. Rosenberg: No, sir.

By Mr. Milton: You are here to make any statement of defense that you can.

By Mr. Rosenberg: Yes, sir. I may say this, that I think Mr. Harrington and all will agree that conditions are such in Jersey City at this time that I think immediate action is necessary and the Commission are alive to that situation.

By Mr. Milton: I might also say for the purpose of the record, a notice was served upon the National Surety Company that the contractor was notified to appear today and that if they wanted to they could be represented.

The City Clerk then read the following statement submitted by Mr. Harrington:

The Board of Commissioners of Jersey City:

Gentlemen—On behalf of Thomas Harrington Sons Company who hold the ash and garbage contract with this city I appear before you this afternoon to explain to you our position with reference to this contract and in compliance with your request after the service of the notice upon me to terminate the contract.

In January of 1917 this city advertised for bids on the ash and garbage removal contract for a period of five (5) years. At that time my brother and myself figured very closely on that contract for the purpose of securing the same. We figured on the conditions as they existed January, 1917, and as our experience as contractors led us to believe would continue for the next period of five (5) years following. The condition existing at that time was normal. Neither my brother nor myself, who were the principal stockholders of the Thomas Harrington's Sons Company, nor the people generally foresaw that this country would, in the near future, enter into the war, or foresaw the tremendous price advance in the cost of labor and the price of materials which has come upon us since that time.

It is needless for me to say that no matter what experience in the contracting line a man might have had previous to January, 1917, he could not have foreseen the conditions into which this country and the labor market was forced shortly thereafter and which today is increasing in a very alarming manner. No one could have foreseen that the labor market would have increased from $2.25 a day, which was the prevailing rate paid by the contractor holding the previous contract, to $4 and $5 a day, which is the prevailing rate paid by us on this work. At that time the city's work was calculated on the basis of cleaning up the route, while today the work is done strictly on an eight (8) hour basis, whether a district is cleaned up or not. Nor could experience have foreseen that the price of feed and oats, which is a very large item in this work, would have increased in price in the manner it has, viz.: Oats from 73 cents a bushel to $1.05 per bushel, which is the price paid today; and hay from $20 to $24 per ton to $35 to $40 per ton, which is the price paid today.

You can, therefore, see the material advance in the cost of doing this work, which was caused by a condition which arose after the taking over of this contract, and which human experience could not have foreseen. I mention these figures only for the purpose of showing you that if any default was made in the carrying out of this contract such default was due to conditions which arose and which were entirely beyond our control and could not have been foreseen by human experience and conditions which we could not remedy.

We have, during the continuance of this contract, done everything in our power to carry on this work with the least possible inconvenience to the public and the greatest possible satisfaction to the City Commissioners and those who were placed in charge of the work by the city.

I feel safe in saying that we were successful in our efforts until recently, when there arose a dissatisfaction with

a few of our employees. We have endeavored in every way possible to satisfy our employees in the matter of wages, hours and conditions, and have been successful except in a very few instances. We have endeavored to replace the dissatisfied employees with others and for the past week or two have had advertisements running in the daily newspapers published in this and adjoining cities, seeking additional help. We have endeavored in every way possible to allay dissatisfaction, but the times, as you gentlemen know, do not tend toward this end, and the result has been that some of our dissatisfied help have struck and this, through fear of trouble, has caused the remaining men to temporarily leave our employ. We have endeavored to fill these places with new help, but up to the present time have been unsuccessful.

(Signed) JOSEPH HARRINGTON,

President of Thomas Harrington's Sons Company.

On motion of Commissioner Fagen, the statement was received and ordered filed.

The foregoing statement was submitted by Mr. Harrington in answer to the following notice to appear in accordance with attached report of Inspector Boyle:

"To Thomas Harrington Sons Company,
556 Montgomery Street,
Jersey City, N. J.

Please take notice that on Thursday, January 29, 1920, at two o'clock P. M., at the Assembly Chamber in the City Hall, I will present to the Board of Commissioners of this City complaint and certification made by Andrew J. Boyle, Inspector of Removal of Ashes and Garbage, concerning the failure on your part to comply with the provisions of the contract between yourselves and Jersey City for the removal of ashes and garbage, which contract is dated January 24, 1917.

Annexed hereto is copy of certification of complaint filed with the Board of Commissioners today.

You will please be present at the said meeting for the purpose of showing cause why the Board of Commissioners should not notify you to discontinue all work, or any part thereof, under said contract, and why the Board of Commissioners should not thereupon proceed to complete the work and provide all labor and materials necessary therefor in accordance with Section 13 of the specifications forming part of said contract.

Dated, January 28, 1920.

MICHAEL I. FAGEN.
Director."

CERTIFICATION OF COMPLAINT.

"January 28, 1920.

Honorable Board of Commissioners,
City Hall,

Gentlemen:

I hereby certify to you, under the provisions of Section 13 of the specifications attached to, and forming part of contract between Thomas Harrington's Sons' Company, and Jersey City, for the collection and removal of ashes and garbage, etc., that the performance of said contract has been for at least six weeks past, and is now being unnecessarily delayed, particularly in this, that instead of there being collections and removals of ashes and garbage twice each week, there have been only one collection and removal, and those were not upon the days specified in the contract.

I further certify that on January 26, 1920, the employes of the contractor struck, and refused to go to work, and upon that day and since that day there have been no ashes or garbage collected by said contractor, with the exception of a partial collection and removal on the 27th instant.

(Signed) ANDREW J. BOYLE,

Inspector-Removal of Ashes and Garbage."

Mr. R. A. Burke, representing the National Surety Company, appeared and was asked by Mr. Milton if he was desirous of making any statement. Mr.

Burke stated that he did not want to make a statement, but merely appeared to answer present in behalf of the National Surety Company.

By Mr Milton: There are two problems confronting us: that is, the removal of ashes and garbage from our streets, because the present situation cannot be tolerated any longer, and the second one is the matter of securing someone to carry out this contract. I assume that that will be done through the medium of public bids. The question of the immediate removal of the ashes on our streets, and the performing of the contract in the interim period. This constitutes an emergency within the meaning of the law, and I think your Board should proceed at once to relieve the present conditions, and I think your procedure should be to authorize your Director of the Department of Streets and Public Improvements to make arrangements for this removal. It seems to me, the main thing is to get the ashes and garbage off the streets.

By Commissioner Fagen: In my opinion we must first take some action as regards the existing contract, whether we are to declare it abandoned or not.

By Mr. Milton: Commissioner Fagen assumed that we were not going to take any action regarding the present contract. The section of the specifications which regulates the rights of the contractor and the City is Section 13, and that provides as follows: Section 13. If the work to be done under these specifications and the contract to be entered into shall be abandoned, or if the contract to be entered into shall be assigned, except as herein specified, or if at any time the Inspector of the Collection of Ashes and Garbage shall be of the opinion and shall so certify in writing to the Board of Commissioners of Jersey City that the said work, or any part thereof, is unnecessarily delayed, or that the said contractor is wilfully violating any of the conditions or covenants of these specifications, or of said contract, or executing said contract in bad faith, said Board shall have the power to notify the contractor to discontinue all work or any part thereof under these specifications and thereupon the contractor shall cease to continue said work or such part thereof as the Board may designate and the said Board shall thereupon have power to complete the work and provide all materials and labor necessary therefor and charge the expense of the same to the contractor, and the expense so charged will be deducted and paid by the City out of any moneys then due or such moneys as may at any time thereafter become due to the contractor under and by virtue of this agreement or any part thereof; and in case such expense is less than the sum which would have been payable under this contract if the same had been completed by the contractor then the said contractor shall be entitled to receive the difference; and in case such sum shall exceed the amount payable as aforesaid, then the contractor shall pay the amount of such excess to the City on notice from said Board of the excess so due.

Now it seems to me that the Board should now adjudicate if it is satisfied that the facts justify it, and I assume that this is so, that the work has been unnecessarily delayed, and notify the contractor to discontinue the work.

By Commissioner Gannon: Which is a revocation of the contract by the City.

Upon conclusion of the foregoing statements, the following resolutions were introduced:

By Commissioner Fagen:

Whereas, Contract was heretofore entered into between this City and Thomas Harrington's Sons' Company, bearing date of January 24, 1917, for the "collection and removal of ashes, garbage, kitchen refuse and waste paper from all the streets in Jersey City from January 15, 1917, to November 30, 1921," in accordance with the spec-

ifications and proposal; and

Whereas, The said contractor has not proceeded to complete or to perform said contract in the manner required thereby or by the specifications thereunto annexed; and

Whereas, The Inspector of Removal of Ashes and Garbage, in accordance with section 13 of the specifications annexed and forming part of said specifications, has certified to this Board under date of January 28, 1920, that the said contractor was unnecessarily delaying in the performance of said work; and

Whereas, Said contractor was thereupon notified to appear before this Board on this day, Thursday, January 29, 1920, at 2 o'clock p. m., in the Assembly Chamber, City Hall, in Jersey City, and show cause why action should not be taken by this Board under the provisions of said section 13 of the said specifications; and

Whereas, Notice was also given to the National Surety Company, surety on the bond given in connection with the said contract; and

Whereas, At the meeting of this Board on said January 29, 1920, the said contractor appeared through Joseph T. Harrington, its president, and M. T. Rosenberg, its attorney, and the said National Surety Company appeared through its representative, Mr. R. A. Burke; and

Whereas, The said contractor stated that it made no objection to the Board proceeding at this time, notwithstanding the fact that it was given notice to appear here only on the 28th day of January, 1920, at 5 o'clock in the evening, and was willing that the Board should proceed with the matter in view of the present conditions; and

Whereas, The said contractor caused to be filed at said time, with the Board a statement in writing relating to the causes for the manner of performance of said contract; and

Whereas, The National Surety Company, when called upon through its representative, stated that he had no statement to make; and

Whereas, The situation with reference to the existence of ashes and garbage on the public streets of this City was discussed at length in the presence of the contractor and representative of said surety company, particularly with reference to the danger of the health of the community in view of the pending or threatened epidemic of influenza; and

Whereas, It appears to this Board from the written statement filed by said contractor and from the certification filed by said Inspector of Removal of Ashes and Garbage, that the work under said contract has been and is now being unnecessarily delayed; therefore be it

Resolved, That this Board does now determine and adjudicate that this work has been and is now being delayed; further

Resolved, That said contractor be and he hereby is notified to discontinue all work under said contract or specifications annexed thereto, all being done in pursuance of section 13 of said specifications; further

Resolved, That a copy of this resolution be forwarded to the contractor and to the National Surety Company.

The City Clerk read the foregoing resolution as ready for final passage.

The roll being called, the resolution was adopted by the following vote:

Yeas: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.

Nays: None.

By Commissioner Fagen:

Whereas, It appears that at this meeting, a resolution was passed by this Board directing Thomas Harrington's Sons' Company to discontinue performing work under contract heretofore entered into between them and this City bearing date of January 24, 1917, for the collection and removal of

ashes, garbage, kitchen refuse and waste paper from all the streets in Jersey City from January 15, 1917, to November 30, 1921; and

Whereas, It now appears through report of the Director of the Department of Streets and Public Improvements made at this meeting, that for the past six weeks, instead of there being two collections of ashes and garbage a week, there had been but one, and since the 28th day of January, 1920, no ashes and garbage have been collected by the said contractor with the exception of a partial collection or removal on the 27th day of January, 1920; and

Whereas, There is now in cans and other receptacles in the public highways and thoroughfares in this City ashes, garbage and refuse; and

Whereas, In the opinion of this Board the presence of such materials in and along the public highways and thoroughfares of this City constitutes a menace to the health of this community, especially so in view of the threatened danger of an epidemic of influenza; therefore be it

Resolved, That in the opinion of this Board, an emergency exists within the meaning of Chapter 168, P. L. 1899 of New Jersey, and other statutes covering the making of contracts; further

Resolved, That the Director of the Department of Streets and Public Improvements be and he is hereby authorized and directed to take all necessary steps and employ all necessary means to cause a removal as rapidly as may be done, of the garbage, ashes, kitchen refuse and other materials ready for collection and removal upon the public highways and thoroughfares of this City, or contained in the houses of the inhabitants hereof, and that he be further authorized and directed, pending the making of a contract for the doing of said work, to cause such materials to be removed from time to time, as well as may be done in accordance with the terms and conditions of said contract; further

Resolved, That the said Director report at the meeting of this Board, to be held February 3, 1920, as to his action in the premises; further

Resolved, That whatever obligations or expenses may be incurred by said Director, in the carrying out of this work, be paid out of appropriations heretofore made for removal of ashes and garbage; further

Resolved, That a copy of this resolution be forwarded to the contractor and to the National Surety Company.

The City Clerk read the foregoing resolution as being ready for final passage.

The roll being called, the resolution was adopted by the following vote:
Yeas: Commissioners Fagen, Gannon, Moore, O'Brien and Mayor Hague.
Nays: None.

At this time Commissioner Moore addressed the Board eulogizing Honorable Gilbert Collins, former Mayor of Jersey City, whose death occurred at noon today. Upon motion of the Commissioner the following resolution was introduced:

By Commissioner Moore:

Whereas, In the passing of the Honorable Gilbert Collins to the realms of eternity, Jersey City has sustained a great loss; and

Whereas, His services as Mayor of Jersey City from 1884 to 1886, Justice of the Supreme Court of New Jersey, member of the bar and distinguished citizen, were of such high character as to commend him to the gratitude, respect and homage of our people; and

Whereas, The passing of so valuable a life, filled with long and admirable service to humanity, city, State and nation, must be a cause of sincere regret to all our people; therefore be it

Resolved, That the City Commission, in meeting assembled, officially record his loss, pay tribute to his memory and express, on behalf of the people and government of Jersey City, deep

sympathy for the bereaved family and keenest regret at the loss of so valued a citizen.

The roll being called, the resolution was adopted by the following vote:

Whereas, The heavy hand of grief and affliction has been laid upon the Mayor of our city in the loss of her who was known by the sacred word of mother; therefore be it

Resolved, That his fellow Commissioners hereby extend to him their sincerest sympathies in this, his hour

of affliction; and be it

Further Resolved, That a copy of this resolution be spread in full upon the Minutes of this meeting of the City Commission. Let it be recorded, too, that in the death of Mrs. Margaret Hague the city has suffered a distinct loss. While she had gone beyond the three score years and ten that seems to be the measured span of life, at the same time the cutting off of the influence of such a woman who could rear such a large family as was hers, and among its members a man of the type of the present Mayor of Jersey City who has done so much for the general benefit of this municipality it is to be regretted that even though advanced years had long since been upon her, hers to a large extent was the influence that moulded and controlled the destiny of that son who reflected such great honor upon her. It cannot be otherwise that she who lived a life of kindly influence cannot now but be earning that reward which comes as a result of duty well performed, and to us who breathe the simple, unaffected but sincere aspiration that she may now rest in peace, the whole city will breathe a fervent amen; be it

Further Resolved, That as a mark of respect, that no business be transacted today except that which is essential and necessary in the current course of the city government; and be it

This time and place having been set for the conference in connection with the development of the industrial and marine terminal on the Newark Bay and Hackensack River shore front, a committee representing the Jersey City Chamber of Commerce and a large delegation of business men from the West Side section appeared and discussed the matter with the Board.

After a lengthy discussion the following resolution was introduced:

By Commissioner Moore:

Whereas, The Board of Commissioners of Jersey City, received at the meeting held Tuesday, February 3, 1920, preliminary joint plan and report of the West Waterfront Committee of the Jersey City Chamber of Commerce and the Director of the Department of Parks & Public Property of Jersey City relative to an industrial and marine terminal development on the Newark Bay and Hackensack River shorefront of Jersey City; and

Whereas, The Board of Commissioners of Jersey City fully appreciate and recognize the great and immediate need of making provisions for the expansion of the City's manufacturing districts; and

Whereas, The manufacturers of the City are now and always have been greatly handicapped by the lack of proper and convenient facilities for shipment of their products by water, and

Whereas, The easterly section of the City is now very much congested and does not even provide for the expansion of manufacturing plants now located there; and

Whereas, The entire Hudson River front with the exception of one pier, is now occupied, controlled and used by the many railroad lines terminating in this city; and

Whereas, The lack of rail and water facilities has retarded development of the City's westerly waterfront, and

Whereas, The large number of public officials and representatives of civic bodies of municipalities bordering Newark Bay, the Hackensack and Passaic rivers, now organized and known as the North Jersey Port Development Association have succeeded in convincing the majority of the members of the Rivers and Harbors Committee of Congress, of the importance of improving these waterways and have furthermore received their personal assurance of support to the project; and

Whereas, The improvement of the westerly shore of the city is largely dependent on its having deep water shipping facilities; and

Whereas; Experience has shown that national legislation is always given impetus, when it is evident that local authorities are co-operating; therefore be it

Resolved, That the Board of Commissioners of Jersey City, adopt tentatively, subject to such changes as

may later seem desirable, the joint tentative plan of the West Waterfront Committee of the Jersey City Chamber of Commerce and the Director of the Department of Parks and Public Property, which plan was presented to the Board at the meeting held February 3, 1920; and be it further

Resolved, That Commissioner Moore in conjunction with the City's Consulting Engineer, Frederick Dunham, be authorized to proceed immediately with a detailed survey of all that area of land recommended in the report for the improvement as the initial step in the development of Plan "A" estimated to amount to about $5,000,000; to prepare and submit to this body for approval a final plan and report for this section and also an accurate and detailed estimate of cost based on the above survey and plan, and be it further

Resolved, That the sum of $10,000 be and hereby is appropriated to the use of Commissioner Moore to increase the City's engineering staff for the purpose above mentioned; and be it further

Resolved, That the following receipt by this Commission of the detailed estimates of cost for the immediate construction contemplated under Plan "A" and referred to in the previous resolution, that this Commissioner shall authorize an appropriation for the immediate construction of the bulkhead required in connection with this plan, such appropriation to be available simultaneously with the appropriation by the Federal authorities of funds necessary to deepen the channels of Newark Bay and dependent on a permanent acquisition by the City of Riparian Rights for the waterfront in question, and be it further

Resolved, That Corporation Counsel John Milton be authorized to confer immediately with Commissioner Moore relative to instigating the necessary legal steps supplemental to the acquisition by the City from the State Board of Commerce and Navigation such lands as are included in this development and are now under the control of that body; and be it further

Resolved, That Comissioner Moore is hereby granted authority to make any expenditures as in his judgement may seem necessary for the proper advertising of this project to the people of Jersey City through such methods as the proper display of the miniature model of this improvement in libraries, clubs, store windows, etc., and through the printing and wide circulation of an explanatory booklet; and be it further

Resolved, That in order to keep both the members of this Commission and the public of Jersey informed from month to month of the progress of this development that Commissioner Moore and Corporation Counsel Milton be requested to furnish this Board with a progress report of their work at the first meeting in every month.

The Board of Commissioners of Jersey City do ordain:

Section 1. That the Ault & Wiborg

Company of New York be and is hereby permitted to erect and maintain a shipping platform, with roof cover on building on Washington Street, platform to extend along the Washington Street side of their building between Morgan and Steuben Streets and to be approximately 150 feet long by 10 feet wide by 4 feet high, the details of which are more particularly shown in plans now on file in the office of the City Clerk. The roof of said platform to be of sufficient height to permit of easy head room, and the platform and roof shall be substantially and securely attached to side walls of building.

REPORTS OF DIRECTORS.

From Commissioner Fagen recommending that the proceedings in the matter of the construction of sewer in Summit Avenue from Cottage Street to Pavonia Avenue, be reconsidered and rescinded.

Received and recommendations adopted.

From Commissioner Gannon, submitting supplemental debt statement.

Received and ordered filed.

Mr. Walter M. Dear appeared at this time and addressed the Board with reference to the widening of Bergen Avenue from Sip Avenue to Bergen Square. He stated that several important real estate deals were contemplated along that thoroughfare which would aid in the development of that section, but that such development would be hindered by the present condition of Bergen Avenue.

Commissioner Fagen advised the Board that before any extensive development could be undertaken, it would be necessary to have a proper and adequate sewage system in that vicinity, because the present system was not sufficient to properly take care of the streets in this section.

After lengthy discussion, the Mayor directed Commissioners Fagen and Gannon to set a date for conference at which time Mr. Dear, other property owners in that section together with City Engineers may go over the matter thoroughly and devise plans for the widening of Bergen Avenue and such other improvements as may be necessary.

A committee representing members of the Jersey City Chamber of Commerce and the Jersey City Business Men's Association appeared before the Board at this time and submitted a petition signed by a majority of business men of the city, requesting the Board to pass an ordinance enforcing the Sunday closing of stores with the exception of such stores as noted in the petition.

After discussion the matter was referred to Miscellaneous Business.

Received and recommendations adopted.

From Commissioner Fagen, recommending that the objection of Dodge & Bliss Co. against the application of the Public Service Electric Co. for the vacation and dedication of a portion of Van Keuren and Duffield Avenues, be not sustained and that the Board proceed with the matter according to law.

Received and recommendations adopted.

At this time the City Clerk took up the question of the resolution offered by the Chamber of Commerce for the proposed development of the West Water Front and retaining the Bion J. Arnold Engineering Company to submit plans.

Mr. Taylor, Acting President, and Mr. Willard Stanton, Manager, of the Jersey City Chamber of Commerce, appeared before the Board and urged the adoption of the suggestions offered by the Chamber.

After lengthy discussion, it was de-

cided that the whole matter be referred back to the Chamber of Commerce, who are to confer with the local engineers and make report to the Board of Commissioners.

The Board of Commissioners of Jersey City do ordain:

Malone and the United States Railroad Administration (Delaware, Lackawanna & Western Railroad Company), to construct an extension to certain spur track on the southerly side of Fifteenth Street, which extension begins at the end of certain spur track now laid on the southerly side of Fifteenth Street and extends a distance of two hundred (200) feet from the intersection formed by the westerly side of Provost Street and the southerly side of Fifteenth Street, said extension to run in the same line as the said spur track a distance of one hundred (100) feet westerly along said southerly side of Fifteenth Street in the manner shown upon the plan annexed to said petition presented to and filed with this Board.

Whereas, Taxes upon the property known as lots 10 and 11 in block 2074 are in arrears for the years 1895 to 1919 amounting in all to the sum of $4,194.51; and

Whereas, It appears from an appraisal of the land and building that the same could not be disposed of for as much as is offered in settlement of such arrearages, and that, therefore, the lien of the City is impaired; and

Whereas, An offer has been made to pay upon such arrearages the sum of $3,000, and it appears that this is the most that could be realized under sale, and that the best interest of the City will be subserved by accepting such offer; therefore be it

Resolved, That the City Collector be and he hereby is authorized to accept the said sum of three thousand ($3,000) dollars in full payment of all tax arrearages on the land and premises aforesaid and upon receipt thereof is further authorized to cancel all assessments upon the said land and premises for the years aforesaid; be it further

Whereas, There are one hundred and fifty-nine election or voting districts in this City; and

Whereas, The City Clerk has been heretofore directed to undertake the redistricting of the City so as to comply with the provisions of said laws; and

Whereas, The present lack of housing facilities has resulted in exorbi-

tant rents being demanded by the owners of properties devoted to living purposes, occasioning in many instances the frequent removal of the occupants of such properties; and

Whereas, In the opinion of this Board some method must be devised to furnish the officials of the City with information respecting the increase or decrease of registered voters in the various election districts; now, therefore,

The Board of Commissioners of Jersey City do ordain:

Section 1. A copy of every notice to quit or terminate a tenancy, and of every demand and notice in writing for possession of premises or for advance or increase in rent, given by any landlord or lessor, his legal representatives, agents or assigns, to any tenant or lessee, must be filed with the City Clerk of Jersey City within forty-eight (48) hours after the service of said notice upon said tenant or lessee.

Section 2. REPORTS OF DIRECTORS.

From Commissioner Gannon, submitting supplemental debt statement.

Received and ordered filed.

From Commissioner Fagen, to whom was referred the application of Frank Williams for permission to erect garage in cellar of No. 2 Apollo St., advising the Board that this neighborhood is strictly residential and placing a garage therein would be a detriment to the neighborhood and increase the fire hazard, and therefore he is returning the application without his approval.

Received.

At this time Mr. Willard Stanton of the Jersey City Chamber of Commerce appeared with a delegation of business men from the various sections of the city and took up with the Board the matter of Sunday closing for stores, as prescribed in their ordinance previously submitted.

The following named persons appeared and spoke in favor of the Sunday closing:

Mr. George Kleinhaus, representing the Newark Avenue merchants; Mr. Jaeckel, representing the Greenville merchants; Mr. Berger of the Hudson City Board of Trade; Mr. Oppenheimer, representing Monticello Ave. business men; Mr. Weinberg, representing the Retail Clerks' Association, and Counselor C. Atwood Wolf, representing the Jackson Ave. business men.

Mr. Florman, proprietor of a clothing store on Central Avenue, appeared and vigorously protested against the Sunday closing. He suggested that if merchants desired to close their stores they should do so, and not interfere with those merchants who were depending upon the business that could be done on Sunday.

The Board discussed the matter at length.

The Mayor advised the delegation that he was opposed to the Sunday closing, because if this ordinance was passed, then eventually the food stores, barber shops and other public commodity shops would request legislation for the closing of their shops, being contrary to the desire of the people at present, which is for a liberal and open Sunday. However, he advised the Committee that the ordinance was now in the hands of the Law Department for approval as to legal form, and that as soon as it was returned to the Board notification will be sent to the various business men's organizations that the Board will again consider the matter.

Corporation Attorney John Bentley and Ass'stant Corporation Attorney Charles M. Egan appeared before the Board at this time and made a report in the matter of the hearing before the Interstate Commerce Commission against the proposed fare increase of the Hudson & Manhattan Railroad Co. Mr. Egan stated that they had secured a suspension of the eight-cent

fare, but added to the order was a schedule allowing the tunnel company a ten-cent fare for uptown and a six-cent fare for downtown. Mr. Egan also stated that at the hearing the tunnel company was represented by its president, Mr. Root, and a staff of counsel, who submitted a report and petition which required months and months of study, while the protestants were represented by Mr. Bentley and himself, who were not fully prepared to combat the evidence submitted by the tunnel representatives. Mr. Egan further stated that the tunnel company did not include in their assets the rental of the terminal building in New York, which represents a very large sum of money, also several other items which would tend to show the profits of the company.

The Board discussed the matter at length and in conclusion the following resolution was introduced:

By Mayor Hague:

Whereas, The city instituted condemnation proceedings to condemn the lands of William C. Banks, which are known by the street numbers 633 and 635 Montgomery street, and are also known as lots 3 and 4, in Block 1899 on the Official Tax Map of Jersey City, and the condemnation commissioners awarded the said William C. Banks the sum of $14,000 for the said premises; and

Whereas, The said William C. Banks appealed from the award of the said commissioners to the Circuit Court of Hudson County and a jury in said court, after hearing the testimony adduced at the trial of said appeal, returned a verdict in favor of said William C. Banks for $12,000, and the said William C. Banks, through his attorney obtained a rule to show cause which was subsequently abandoned and made a motion for a new trial before Hon. Luther Campbell, judge of said Circuit Court, which application was denied by said judge, and the attorney of said William C. Banks stated that his client directed him to take further proceedings in said matter to set aside the said verdict of said jury, and the original award by the said condemnation commissioners; and

Whereas, Henry Byrne claims to hold a mortgage for $18,000 on said premises, which mortgage appears of record in the Hudson County Register's Office, and the said Henry Byrne, through his attorney, John Warren, instituted proceedings in the Court of Chancery of New Jersey to foreclose said mortgage, despite the fact that the said Henry Byrne was made a party to the condemnation proceedings; and

Whereas, Many months will undoubtedly elapse before the said foreclosure proceedings are determined; and to avoid delay in the progress of the contemplated improvements at the Jersey City Hospital and to avoid any further legal delays that might ensue as a result of further contemplated legal proceedings by the said William C. Banks; and

Whereas, Charles M. Egan, assistant to the Corporation Counsel, has submitted to this Board a communication received from Myron C. Ernst, attorney for William C. Banks, in which he proposes to discontinue all the proceedings instituted by the said William C. Banks and to give a deed for said premises and to effect a settlement of the foreclosure proceedings instituted by the said Henry Byrne upon payment to the said William C. Banks of the award of $14,000 made by the commissioners in condemnation, and the city considers that the price of $14,000 for said lands is reasonable and the avoidance of further delay desirable; therefore be it

Resolved, That the Corporation Counsel be and he is hereby authorized to accept a deed from the said William C. Banks of the said premises for the sum of fourteen thousand ($14,000) dollars.

In conjunction with the foregoing resolution, Myron C. Ernst, attorney for William C. Banks, appeared before the Board and requested that his appearance be noted in the record, in accordance with communication previously submitted by him.

At this time Mr. Frank Williams of No. 2 Appolo Street, Jersey City, appeared before the Board and renewed his application for permission to erect garage in cellar of his home at No. 2 Appolo Street, which permission had been refused by the Board on recommendation of Commissioner Fagen, at the meeting held April 6, 1920. Commissioner Fagen advised the Board that he had inspected the premises and that he had reconsidered his recommendation refusing the permit, and also recommended that the matter be taken up by the entire Board.

Mr. Williams explained to the Board that he would construct the garage to the satisfaction of the proper authorities and that he could not build the garage at the back of the house be-

cause the width of his lot does not allow for a runway alongside of the house and that one side of the house is right up against a stone wall.

After discussion the following resolution was introduced:

By Mayor Hague:

Resolved, That permission be and the same is hereby granted to Frank Williams to alter building and build garage in cellar of No. 2 Appolo Street, as shown on plans attached to application, provided that the street and sidewalk level is not altered in any manner; further

Resolved, That the Superintendent of Buildings be and he is hereby authorized and requested to issue permit for doing said work.

Adopted.

REPORTS OF DIRECTORS.

From Commissioner Gannon, submitting supplemental debt statement.

Received.

Mr. George Treacy, President of the Bergen Avenue Jitneymens' Association, appeared at this time and discussed with the Board the proposed improvement in the Bergen Avenue Jitney service. He stated that he had been informed that touring cars were to be replaced with busses and that if this change was made the present touring car operators would have to abandon the proposed improvement and for this reason they hesitated before investing any money for the proposed changes.

The Board assured Mr. Treacy that Bergen Avenue, being a narrow street, busses could not be operated.

Mr. Treacy stated that if the present proposed improvements are carried out, all cars will be put in fine condition, the cars will operate at regular intervals and the service will be improved in every respect. He also assured the Board that with the improvement he was not advocating any particular manufacturer's car, but that all cars must be uniform.

After discussion the Mayor advised Mr. Treacy to prepare a complete report relative to the proposed improvement and submit it to the Board for consideration.

REPORTS OF DIRECTORS.

From Commissioner Fagen advising the board that the Lembeck & Betz Brewing Company had withdrawn their objection against the application of the Reade Manufacturing Company to lay and maintain track across Seventeenth Street, and in view of this respectfully recommends that an ordinance be introduced at this meeting granting permission to the Reade Manufacturing Company to lay and maintain track across Seventeenth Street.

Received and recommendations adopted.

At this time Counsellor Robert Gray appeared and took up with the board the matter of granting relief to the contractors who are now building schools for Jersey City. He stated that due to the general increase in the cost of labor and material since the letting of the contracts the contractors find that it is impossible for them to continue with the buildings. The subcontractors have ceased working and have declared sort of a strike until their increased demands are met. He also stated that this board had the power to grant the necessary relief in accordance with legislation passed at this year's session at Trenton, although the Board of Education must first approve any application for increased prices on contracts for school purposes.

Commissioner Fagen objected to the granting of any increases on contracts for schools, stating that if this was granted then other contractors holding various city contracts would demand increases. He also stated that the contractors were well acquainted with the conditions of the contracts and should be compelled to complete their contracts.

The board discussed the matter at length and the Mayor advised Mr. Carey that they would consider the matter and advise him in the premises.

A delegation from the Jackson Avenue Merchants' Association appeared before the board at this time and urgently requested the board to take immediate action for the improvement of Jackson Avenue. Mr. John V. Bridges, president of the association, stated that the condition of the street was very bad, and needed improving because it was a very important business thoroughfare.

Commissioner Fagen, at the direction of the Mayor, advised the delegation that the street had been paved about six years ago and would still be in good condition if it were not for the Public Service Railway tracks, which are very poorly constructed and in bad condition. He stated that he has requested the Public Service to improve these conditions, but they have refused.

The Board discussed the matter at length and the Mayor suggested that the City proceed with the improvement up to the track line and then put the rest up to the Public Service.

Commissioner Fagen stated that he would have prepared and submitted within three weeks specifications for this improvement, and would also get in touch with the Public Service to do their share.

The Mayor also advised Mr. Bridges to get in touch with the Public Service Co. with reference to securing better lighting for the street and to place their wires in conduits under ground.

From Bergen Avenue Jitney Owners Protective Association, requesting that no action be taken in regard to the Bergen Avenue jitney situation until their members have had an opportunity to be heard.

In connection with the foregoing petition, George Treacy, President of the Bergen Avenue Jitneymen's Association, appeared and requested an extension of one month in which to complete arrangements for the contemplated improvement in the Bergen Avenue Jitney service previously outlined. He stated that the improvement would have been completed by this time, but the men were holding back on account of some of the operators on Bergen Avenue declaring that they were going to just patch up their cars and run them in any way to suit themselves. The beneficiaries shall protect and repair, at its own cost and expense, any and all municipal property that may be injured by construction, maintenance and operation hereby authorized, but the municipal authorities shall have the right, at any time, to enter upon the roadway traversed by said tracks and examine, repair, relocate, restore and install any municipal property.

4. In the operation of the tracks herein authorized steam or electric propelling power may be used. The operation of cars over the street shall be subject to such restrictions as may be prescribed in the general ordinance covering such matters.

5. 6. Failure by the beneficiaries to

comply with any of the obligations or requirements, expressed or implied, in any section of this ordinance, shall constitute sufficient reason for the revocal hereof, without prior notice, and the removal of said tracks, and any and all other obstructions on street, presumably placed by reason of this permission, without recourse by said beneficiaries to the City for any damage of any character.

7. In accepting the privileges of this ordinance and the operation and maintenance herein authorized, the beneficiaries thereby agree to assume full, complete and undivided responsibilities for any and all injuries or damages to persons or property by reason of such operation and maintenance, and to hold the City harmless therefrom.

9. (Where street is now paved). The beneficiaries shall restore the pavement so disturbed in laying the tracks herein authorized, and maintain same at its own cost and expense and to the satisfaction of the proper official having charge of the streets of said City, said area to be that portion between the tracks and two feet outside the outer rails thereof.

10. Beneficiaries shall also change the class of pavement from time to time as may be required by the proper officials of the Department in charge of the streets.

11. For the privileges hereby granted, the beneficiaries shall pay annually to the City of Jersey City the sum of two hundred dollars ($200.00) for the temporary track on Fifteenth Street and one hundred dollars ($100.00) for the permanent track across Monument Street, semi-annual payments of which shall be made on the first day of June and December in each year.

IMPROVEMENT HEARINGS.

The hearing on the final passage of an ordinance for the following improvement: "An ordinance to establish a legal grade for Bayview Avenue, formerly known as West View Avenue, and also to establish a legal grade for Culver Avenue," lying between Hudson Boulevard and West Side Avenue, having been adjourned and continued to this time and place, the City Clerk called for anyone who might desire to be heard either in favor of or against the passage of the above described ordinance. No one appeared to protest and no written protest was received.

On motion of Commissioner Fagen the ordinance was referred to Miscellaneous Business for further action.

This time and place having been advertised for public hearing on the final passage of an ordinance for the proposed following improvement: "The improvement of all that part of Bergen Avenue, between Hudson Boulevard and Bergen Square, and Sip Avenue, between the westerly line of Summit Avenue and the proposed easterly line of Bergen Avenue, by widening same, the City Clerk called for anyone who might desire to be heard either in favor of or against the passage of the above described ordinance.

Mr. William F. Moore, representing Harry J. Max and Mr. A. Michel, owners of property at the southwest corner of Sip and Bergen Avenues, appeared and stated that notwithstanding the fact that their property was very shallow, and that taking five feet would hurt the property somewhat, he would, as a matter of public policy, accept all loss with whatever grace he will be able.

General William C. Heppenheimer, president of the Trust Company of New Jersey, appeared and advised the Board the bank contemplated erecting a large building at the southeast corner of Enos Place and Sip Avenue, but could not proceed with plans due to the pending street widening project. He also urged the Board due to undertake the widening of Sip and Bergen Avenues, stating that this section was rapidly developing into an important business section, and the streets must be widened and improved to meet this rapid growth.

Mr. Harry J. Max, property owner in the vicinity of Bergen Avenue and Sip Avenue, appeared and urged the Board to proceed with the widening stating that the improvement was absolutely necessary, and that property valuations will increase 25 to 30 per cent.

Mr. Walter Dear, of the Evening Journal Association, appeared and requested the Board to undertake the improvement, as it will have a tendency to relieve the traffic congestion and greatly benefit the valuations of property in the vicinity.

Counsellor Thomas Stanton appeared in behalf of the Universal Security Company, 103 Sip Avenue, and the Hudson Investment Company, 922 Bergen Avenue, and stated that his clients were in favor of the proposed improvement and that he was present for the purpose of getting further information on the project.

Counsellor Pierre F. Cook, represent-

ing Bernard and Marie Diamond, owners of No. 915-921 Bergen Avenue; Mr. James T. Bough, owner of No. 911 Bergen avenue; Thomas Fallon, Jr., owner of Fallon Building at the corner of Bergen and Sip Avenues; Mr. W. B. Harris, owner of No. 903 Bergen Avenue; Mr. Edward S. Lynch, owner of No. 909 Bergen Avenue; Mrs. Rebecca Gardeen, owner of No. 905 Bergen Avenue; Mr. Darling, Jr.; appeared and protested against the proposed improvement on the grounds that cutting off this strip of land would seriously ruin their property.

A written protest signed by several property owners of Bergen and Sip Avenues was presented. The protest stated that the improvement was unnecessary, very destructive and costly, and that no matter what price the City will pay for the loss suffered by the condemnation of their property, it will not compensate them for said loss.

A written protest was also submitted by Dr. R. W. A. English. The protest was signed by property owners of Bergen and Sip Avenues, and stated that the improvement was unnecessary, very costly, and without benefit to the City.

Mr. John C. Payne, owner of No. 116 Sip Avenue, submitted a written brief relative to the proposed widening, and requested that instead of taking ten feet from his property, as contemplated, that only five feet be taken off, as that will be sufficient to relieve the congestion.

On motion of Commissioner Gannon the protests were referred to Commissioner Fagen for investigation and recommendation.

The Board discussed the matter at length, and in concluding the following resolution was introduced:

By Commissioner Fagen:

Resolved, That the hearing on the final passage of an ordinance for the improvement of all that part of Bergen Avenue between Hudson Boulevard and Bergen Square and Sip Avenue, between the westerly line of Summit Avenue and the proposed easterly line of Bergen Avenue, by widening the same, in accordance with the provisions of Chapter 152, Laws of 1917, be and the same is hereby adjourned and continued to Tuesday, June 1, 1920, at 2 p. m., in the Assembly Chamber, City Hall, Jersey City.

Adopted.

Yeas: Commissioners Fagen, Gannon, Moore and O'Brien.

Nays: None.

FRANCHISE HEARINGS.

The hearings on the following described ordinances for franchise privileges having been adjourned and continued to this time and place, and the City Clerk having advertised that the Board of Commissioners of Jersey City will consider the final passage of the ordinances at this time and place, the City Clerk called for any one who might desire to protest against the final passage of the following ordinances:

Public Service Elec. Company, vacation and dedication of a portion of Duffield & Van Keuren Avenues.

Standard Oil Co., track across Monmouth Street.

Standard Oil Co., box culvert across Monmouth Street.

No one appeared to protest and no written protests were received against any of the above described ordinances.

On motion of Commissioner Fagen the ordinances were referred to Miscellaneous Business for further action.

ALTERATION HEARINGS.

This time and place having been advertised for public hearing on the application of Tony Coppolino for permission to alter two-story frame building, build garage in cellar, excavate for runway and build walls on side of runway at No. 276 Princeton Avenue, the City Clerk called for any one who might desire to protest against the application. No one appeared to protest and no written protests were received against the appplication.

Resolution disapproving application of Charles H. Shuttleworth, Inc., for permission to erect a private garage

in the residence building at No. 145 Kensington Avenue, Jersey City, N. J.

Whereas, Charles H. Shuttleworth, Inc., has made application by petition, in duplicate, to the Superintendent of Buildings of Jersey City, under and by virtue of an ordinance entitled "An ordinance to amend an ordinance entitled 'The Building Code,' passed September 17, 1907, and approved October 1, 1907," for permission to erect a private garage in the residence building at No. 145 Kensington Avenue, Jersey City, N. J., and has filed with said Superintendent of Buildings of Jersey City, said petition, accompanied by a drawing or blue-print in triplicate, as required by said ordinance; said Superintendent of Buildings has investigated, or caused to be investigated, the nature or character of the adjoining buildings, and the uses to which such buildings are put, and has filed the result of such investigation with the Board of Commissioners of Jersey City, in writing, in the manner and as required by said ordinance, which investigation shows that the residence building at No. 145 Kensington Avenue, Jersey City, N. J., and the adjoining buildings, are frame buildings, and used strictly for residential purposes, and that there are no garages on said street in the block in any frame building;

Whereas, The City Clerk of Jersey City has published notice of a hearing by said Board of Commissioners, upon said application, as required by said ordinance; and

Whereas, Said Board of Commissioners at the conclusion of said hearing, after considering said application, is of the opinion that the erection of a garage in said residence building at No. 145 Kensington Avenue, Jersey City, N. J., will increase the danger of damage by fire to said residence building and to the adjoining buildings, will cause an increase in the rates charged for insuring the adjoining buildings against loss or damage by fire, and will be a nuisance to said neighborhood; therefore, be it

Resolved by the Board of Commissioners of Jersey City, That the application of Charles H. Shuttleworth, Inc., for permission to erect a private garage in the residence building at No. 145 Kensington Avenue, Jersey City, N. J., be and the same is hereby disapproved.

Whereas, An efficient postal service is dependent upon the maintenance of an experienced and efficient force; and

Whereas, The salaries now paid are insufficient to hold those who are at present in the service, or to attract competent applicants from other fields. In evidence of which we point to the resignations which are occurring in great numbers throughout the country, and to the exhaustion of the civil service lists; and

Whereas, The public is vitally interested in maintaining the standards of the service, and it would be a national calamity for it to break down; therefore be it

Resolved, That we urge the Congress of the United States to grant to the postal employes before adjournment an increase in salary to the extent of bringing their wages to a par with those paid in other industries calling for like qualifications, and commensurate with the high cost of living;

Resolved further, That copies of these resolutions be sent to:
